Federal, State and local regulations and reporting requirements applicable to the proposed work must be complied with for this project.

Pursuant to Section 1773 of the Labor Code, the general prevailing rate of wages in the County in which the work is to be done has been determined by the Director of the California Department of Industrial Relations and are on file and available from the Clerk of the Board of Supervisors located at the County Administration Center, 940 Main Street, El Centro, CA 92243.

These wages are also available from the California Department of Industrial Relations' Internet web site at <http://www.dir.ca.gov>. Future effective general prevailing wage rates, which have been predetermined and are on file with the California Department of Industrial Relations are referenced but not printed in the general prevailing wage rates.

Attention is directed to the Federal minimum wage rate requirements set forth elsewhere in these special provisions. If there is a difference between the minimum wage rates predetermined by the Secretary of Labor and the general prevailing wage rates determined by the Director of the California Department of Industrial Relations for similar classifications of labor, the Contractor and subcontractors shall pay not less than the higher wage rate. The Department will not accept lower State wage rates not specifically included in the Federal minimum wage determinations. This includes “helper” (or other classifications based on hours of experience) or any other classification not appearing in the Federal wage determinations. Where Federal wage determinations do not contain the State wage rate determination otherwise available

for use by the Contractor and subcontractors, the Contractor and subcontractors shall pay not less than the Federal minimum wage rate, which most closely approximates the duties of the employees in question.

If there is a difference between the minimum wage rates predetermined by the Secretary of Labor and the prevailing wage rates determined by the State for similar classifications of labor, the Contractor and his subcontractor shall pay not less than the higher wage rate.

The Contractor represents and warrants that it and its subcontractors are not ineligible to work for the County due to violations of Sections 1777.1 and 1777.7 of the Labor Code.

Bidders are advised that, as required by federal law, the State has established a statewide overall DBE goal. This County of Imperial federal-aid contract is considered to be part of the statewide overall DBE goal. 2-1.01 GENERAL -- The bidder's attention is directed to the provisions in Section 2, "Proposal Requirements and Conditions," of the Standard Specifications and these special provisions for the requirements and conditions which the bidder must observe in the preparation of the proposal form and the submission of the bid.

In addition to the subcontractors required to be listed in conformance with Section 2-1.054, "Required Listing of Proposed Subcontractors," of the Standard Specifications, each proposal shall have listed therein the portion of work that will be done by each subcontractor listed. 49 CFR part 26 in the award and administration of DOT assisted contracts. Failure by the contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy, as the recipient deems appropriate. Each subcontract signed by the bidder must include this assurance.

Failure of the bidder to fulfill the requirements of the Special Provisions for submittals required to be furnished after bid opening, including but not limited to escrowed bid documents, where applicable, may subject the bidder to a determination of the bidder's responsibility in the event it is the apparent low bidder on future Public Works contracts.

2-1.02 DISADVANTAGE BUSINESS ENTERPRISE -

1. DISADVANTAGED BUSINESS ENTERPRISES (DBE)

Under 49 CFR 26.13(b):

The contractor, subrecipient or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR 26 in the award and administration of DOT-assisted contracts. Failure by the contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the recipient deems appropriate.

Take necessary and reasonable steps to ensure that DBEs have opportunity to participate in the contract (49 CFR 26). To ensure equal participation of DBEs provided in 49 CFR 26.5, the Agency shows a contract goal for DBEs. Make work available to DBEs and select work parts consistent with available DBE subcontractors and suppliers.

Meet the DBE goal shown elsewhere in these special provisions or demonstrate that you made adequate good faith efforts to meet this goal.

It is your responsibility to verify that the DBE firm is certified as DBE at date of bid opening. For a list of DBEs certified by the California Unified Certification Program, check below:

http://www.dot.ca.gov/hq/bep/find_certified.htm.

All DBE participation will count toward the California Department of Transportation's federally mandated statewide overall DBE goal.

Credit for materials or supplies you purchase from DBEs counts towards the goal in the following manner:

- 100 percent counts if the materials or supplies are obtained from a DBE manufacturer.
- 60 percent counts if the materials or supplies are obtained from a DBE regular dealer.
- Only fees, commissions, and charges for assistance in the procurement and delivery of materials or supplies count if obtained from a DBE that is neither a manufacturer nor regular dealer. 49CFR26.55 defines "manufacturer" and "regular dealer."

You receive credit towards the goal if you employ a DBE trucking company that performs a commercially useful function as defined in 49CFR26.55(d)(1) as follows:

- The DBE must be responsible for the management and supervision of the entire trucking operation for which it is responsible on a particular contract, and there cannot be a contrived arrangement for the purpose of meeting DBE goals.
- The DBE must itself own and operate at least one fully licensed, insured, and operational truck used on the contract.
- The DBE receives credit for the total value of the transportation services it provides on the Contract using trucks it owns, insures, and operates using drivers it employs.
- The DBE may lease trucks from another DBE firm, including an owner-operator who is certified as a DBE. The DBE who leases trucks from another DBE receives credit for the total value of the transportation services the lessee DBE provides on the Contract.
- The DBE may lease trucks without drivers from a non-DBE truck leasing company. If the DBE leases trucks from a non-DBE truck leasing company and uses its own employees as drivers, it is entitled to credit for the total value of these hauling services.
- A lease must indicate that the DBE has exclusive use of and control over the truck. This does not preclude the leased truck from working for others during the term of the lease with the consent of the DBE, so long as the lease gives the DBE absolute priority for use of the leased truck. Leased trucks must display the name and identification number of the DBE.

a. DBE Commitment Submittal

Submit the Exhibit 15-G *Construction Contract DBE Commitment*, included in the Bid book. If the form is not submitted with the bid, remove the form from the Bid book before submitting your bid.

If the DBE Commitment form is not submitted with the bid, all bidders must complete and submit Exhibit 15-G to the Agency. The DBE Commitment form must be received by the Agency within five (5) days of bid opening.

Submit written confirmation from each DBE stating that it is participating in the contract. Include confirmation with the DBE Commitment form. A copy of a DBE's quote will serve as written confirmation that the DBE is participating in the contract.

If you do not submit the DBE Commitment form within the specified time, the Agency will find your bid nonresponsive.

b. Good Faith Efforts Submittal

Exhibit 15-H: Proposer/Contractor Good Faith Efforts is due to the local agency within five (5) days of bid opening. Days means calendar days. In computing any period of time described in this part, the day from which the period begins to run is not counted, and when the last day of the period is a Saturday, Sunday, or federal holiday, the period extends to the next day that is not a Saturday, Sunday, or federal holiday. Similarly, in circumstances where the recipient's offices are closed for all or part of the last day, the period extends to the next on which the agency is open. Only good faith efforts directed towards obtaining participation and meeting or exceeding the DBE contract goal will be considered.

Submittal of good faith efforts documentation within the specified time protects your eligibility for award of the contract in the event the Agency finds that the DBE goal has not been met.

Good faith efforts documentation must include the following information and supporting documents, as necessary:

1. Items of work you have made available to DBE firms. Identify those items of work you might otherwise perform with your own forces and those items that have been broken down into economically feasible units to facilitate DBE participation. For each item listed, show the dollar value and percentage of the total contract. It is your responsibility to demonstrate that sufficient work to meet the goal was made available to DBE firms.
2. Names of certified DBEs and dates on which they were solicited to bid on the project. Include the items of work offered. Describe the methods used for following up initial solicitations to determine with certainty if the DBEs were interested, and the dates of the follow-up. Attach supporting documents such as copies of letters, memos, facsimiles sent, telephone logs, telephone billing statements, and other evidence of solicitation. You are reminded to solicit certified DBEs through all reasonable and available means and provide sufficient time to allow DBEs to respond.
3. Name of selected firm and its status as a DBE for each item of work made available. Include name, address, and telephone number of each DBE that provided a quote and their price quote. If the firm selected for the item is not a DBE, provide the reasons for the selection.
4. Name and date of each publication in which you requested DBE participation for the project. Attach copies of the published advertisements.
5. Names of agencies and dates on which they were contacted to provide assistance in contacting, recruiting, and using DBE firms. If the agencies were contacted in writing, provide copies of supporting documents.
6. List of efforts made to provide interested DBEs with adequate information about the plans, specifications, and requirements of the contract to assist them in responding to a solicitation. If you have provided information, identify the name of the DBE assisted, the nature of the information provided, and date of contact. Provide copies of supporting documents, as appropriate.
7. List of efforts made to assist interested DBEs in obtaining bonding, lines of credit, insurance, necessary equipment, supplies, and materials, excluding supplies and equipment that the DBE subcontractor purchases or leases from the prime contractor or its affiliate. If such assistance is provided by you, identify the name of the DBE assisted, nature of the assistance offered, and date assistance was provided. Provide copies of supporting documents, as appropriate.
8. Any additional data to support demonstration of good faith efforts.

The Agency may consider DBE commitments from other bidders when determining whether the low bidder made good faith efforts to meet or exceed the DBE goal.

c. Exhibit 15-G - Construction Contract DBE Commitment

Complete and sign Exhibit 15-G *Construction Contract DBE Commitment* included in the contract documents regardless of whether DBE participation is reported. Provide written confirmation from each DBE that the DBE is participating in the Contract. A copy of a DBE's quote serves as written confirmation. If a DBE is participating as a joint venture partner, please submit a copy of the joint venture agreement.

d. Subcontractor and Disadvantaged Business Enterprise Records

Use each DBE subcontractor as listed on Exhibit 12-B *Bidder's List of Subcontractors (DBE and Non-DBE)*, and Exhibit 15-G *Construction Contract DBE Commitment* form unless you receive authorization for a substitution.

The Agency requests the Contractor to:

1. Notify the Resident Engineer or Inspector of any changes to its anticipated DBE participation
2. Provide this notification before starting the affected work
3. Maintain records including:
 - Name and business address of each 1st-tier subcontractor
 - Name and business address of each DBE subcontractor, DBE vendor, and DBE trucking company, regardless of tier
 - Date of payment and total amount paid to each business (see Exhibit 9-F:Monthly Disadvantaged Business Enterprise Payment)

If you are a DBE contractor, include the date of work performed by your own forces and the corresponding value of the work.

Before the 15th of each month, submit a Monthly DBE Trucking Verification form.

If a DBE is decertified before completing its work, the DBE must notify you in writing of the decertification date. If a business becomes a certified DBE before completing its work, the business must notify you in writing of the certification date. Submit the notifications. On work completion, complete a Disadvantaged Business Enterprises (DBE) Certification Status Change, Exhibit 17-O, form. Submit the form within 30 days of contract acceptance.

Upon work completion, complete Exhibit 17-F *Final Report – Utilization of Disadvantaged Business Enterprises (DBE), First-Tier Subcontractors*. Submit it within 90 days of contract acceptance. The Agency will withhold \$10,000 until the form is submitted. The Agency releases the withhold upon submission of the completed form.

e. Performance of Disadvantaged Business Enterprises

DBEs must perform work or supply materials as listed in the Exhibit 15-G *Construction Contract DBE Commitment* form, included in the Bid.

Do not terminate or substitute a listed DBE for convenience and perform the work with your own forces or obtain materials from other sources without authorization from the Agency.

The Agency authorizes a request to use other forces or sources of materials if the bidder shows any of the following justifications:

1. Listed DBE fails or refuses to execute a written contract based on plans and specifications for the project.
2. You stipulated that a bond is a condition of executing the subcontract and the listed DBE fails to meet your bond requirements.
3. Work requires a contractor's license and listed DBE does not have a valid license under Contractors License Law.
4. Listed DBE fails or refuses to perform the work or furnish the listed materials.
5. Listed DBE's work is unsatisfactory and not in compliance with the contract.
6. Listed DBE is ineligible to work on the project because of suspension or debarment.
7. Listed DBE becomes bankrupt or insolvent.
8. Listed DBE voluntarily withdraws with written notice from the Contract
9. Listed DBE is ineligible to receive credit for the type of work required.
10. Listed DBE owner dies or becomes disabled resulting in the inability to perform the work on the Contract.
11. Agency determines other documented good cause.

Notify the original DBE of your intent to use other forces or material sources and provide the reasons. Provide the DBE with 5 days to respond to your notice and advise you and the Agency of the reasons why the use of other forces or sources of materials should not occur. Your request to use other forces or material sources must include:

1. One or more of the reasons listed in the preceding paragraph.
2. Notices from you to the DBE regarding the request.
3. Notices from the DBEs to you regarding the request.

If a listed DBE is terminated or substituted, you must make good faith efforts to find another DBE to substitute for the original DBE. The substitute DBE must perform at least the same amount of work as the original DBE under the contract to the extent needed to meet or exceed the DBE goal.

The contractor or consultant shall utilize the specific DBEs listed to perform the work and supply the materials for which each is listed unless the contractor or subconsultant obtains the agency's written consent. Unless the agency's consent is provided, the contractor shall not be entitled to any payment for work or material unless it is performed or supplied by the listed DBE on the Exhibit 15-G: Construction Contract DBE Commitment.

2. **BID OPENING** The Agency publicly opens and reads bids at the time and place shown on the Notice to Contractors.
3. **BID RIGGING** The U.S. Department of Transportation (DOT) provides a toll-free hotline to report bid rigging activities. Use the hotline to report bid rigging, bidder collusion, and other fraudulent activities. The hotline number is (800) 424-9071. The service is available 24 hours 7 days a week and is confidential and anonymous.. The hotline is part of the DOT's effort to identify

and investigate highway construction contract fraud and abuse and is operated under the direction of the DOT Inspector General.

4. CONTRACT AWARD If the Agency awards the contract, the award is made to the lowest responsible and responsive bidder.

5. CONTRACTOR LICENSE

The Contractor must be properly licensed as a contractor from contract award through Contract acceptance (Public Contract Code § 10164).

6. CHANGED CONDITIONS

a. Differing Site Conditions

1. During the progress of the work, if subsurface or latent physical conditions are encountered at the site differing materially from those indicated in the contract or if unknown physical conditions of an unusual nature, differing materially from those ordinarily encountered and generally recognized as inherent in the work provided for in the contract, are encountered at the site, the party discovering such conditions shall promptly notify the other party in writing of the specific differing conditions before the site is disturbed and before the affected work is performed.
2. Upon written notification, the engineer will investigate the conditions, and if it is determined that the conditions materially differ and cause an increase or decrease in the cost or time required for the performance of any work under the contract, an adjustment, excluding anticipated profits, will be made and the contract modified in writing accordingly. The engineer will notify the contractor of the determination whether or not an adjustment of the contract is warranted.
3. No contract adjustment which results in a benefit to the contractor will be allowed unless the contractor has provided the required written notice.
4. No contract adjustment will be allowed under this clause for any effects caused on unchanged work. (This provision may be omitted by the Local Agency, at their option.)

b. Suspensions of Work Ordered by the Engineer

1. If the performance of all or any portion of the work is suspended or delayed by the engineer in writing for an unreasonable period of time (not originally anticipated, customary, or inherent to the construction industry) and the contractor believes that additional compensation and/or contract time is due as a result of such suspension or delay, the contractor shall submit to the engineer in writing a request for adjustment within 7 calendar days of receipt of the notice to resume work. The request shall set forth the reasons and support for such adjustment.
2. Upon receipt, the engineer will evaluate the contractor's request. If the engineer agrees that the cost and/or time required for the performance of the contract has increased as a result of such suspension and the suspension was caused by conditions beyond the control of and not the fault of the contractor, its suppliers, or subcontractors at any approved tier, and not caused by weather, the engineer will make an adjustment (excluding profit) and modify the contract in writing accordingly. The contractor will

be notified of the engineer's determination whether or not an adjustment of the contract is warranted.

3. No contract adjustment will be allowed unless the contractor has submitted the request for adjustment within the time prescribed.
4. No contract adjustment will be allowed under this clause to the extent that performance would have been suspended or delayed by any other cause, or for which an adjustment is provided or excluded under any other term or condition of this contract.

c. Significant Changes in the Character of Work

1. The engineer reserves the right to make, in writing, at any time during the work, such changes in quantities and such alterations in the work as are necessary to satisfactorily complete the project. Such changes in quantities and alterations shall not invalidate the contract nor release the surety, and the contractor agrees to perform the work as altered.
2. If the alterations or changes in quantities significantly change the character of the work under the contract, whether such alterations or changes are in themselves significant changes to the character of the work or by affecting other work cause such other work to become significantly different in character, an adjustment, excluding anticipated profit, will be made to the contract. The basis for the adjustment shall be agreed upon prior to the performance of the work. If a basis cannot be agreed upon, then an adjustment will be made either for or against the contractor in such amount as the engineer may determine to be fair and equitable.
3. If the alterations or changes in quantities do not significantly change the character of the work to be performed under the contract, the altered work will be paid for as provided elsewhere in the contract.
4. The term “significant change” shall be construed to apply only to the following circumstances:
 - When the character of the work as altered differs materially in kind or nature from that involved or included in the original proposed construction; or
 - When a major item of work, as defined elsewhere in the contract, is increased in excess of 125 percent or decreased below 75 percent of the original contract quantity. Any allowance for an increase in quantity shall apply only to that portion in excess of 125 percent of original contract item quantity, or in case of a decrease below 75 percent, to the actual amount of work performed.

7. BEGINNING OF WORK, TIME OF COMPLETION AND LIQUIDATED DAMAGES

Refer to Section 4 – Beginning of Work, Time of Completion and Liquidated Damage in Part II Special Provisions – Special Conditions of these Specifications.

8. BUY AMERICA

Furnish steel and iron materials to be incorporated into the work with certificates of compliance and certified mill test reports. Mill test reports must indicate where the steel and iron were melted and manufactured. Steel and iron materials must be produced in the U.S. except:

1. Foreign pig iron and processed, pelletized, and reduced iron ore may be used in the domestic production of the steel and iron materials [60 Fed Reg 15478 (03/24/1995)];
2. If the total combined cost of the materials does not exceed the greater of 0.1 percent of the total bid or \$2,500, materials produced outside the U.S. may be used.

Production includes:

1. Processing steel and iron materials, including smelting or other processes that alter the physical form or shape (such as rolling, extruding, machining, bending, grinding, and drilling) or chemical composition;
2. Coating application, including epoxy coating, galvanizing, and painting, that protects or enhances the value of steel and iron materials.

9. QUALITY ASSURANCE

The Agency uses a Quality Assurance Program (QAP) to ensure a material is produced to comply with the Contract. You may examine the records and reports of tests the Agency performs if they are available at the job site. Schedule work to allow time for QAP.

10. PROMPT PAYMENT OF FUNDS WITHHELD TO SUBCONTRACTORS

The agency may hold retainage from the prime contractor and shall make prompt and regular incremental acceptances of portions, as determined by the agency, of the contract work, and pay retainage to the prime contractor based on these acceptances. The prime contractor, or subcontractor, shall return all monies withheld in retention from a subcontractor within seven (7) days after receiving payment for work satisfactorily completed and accepted including incremental acceptances of portions of the contract work by the agency, unless as agreed to in writing by the prime contractor and subcontractor, pursuant to Section 7108.5 of the Business and Professions Code and Section 10262 of the California Public Contract Code. Any violation of these provisions shall subject the violating prime contractor or subcontractor to the penalties, sanctions and other remedies specified therein. These requirements shall not be construed to limit or impair any contractual, administrative, or judicial remedies otherwise available to the prime contractor or subcontractor in the event of a dispute involving late payment or nonpayment by the prime contractor, deficient subcontract performance, or noncompliance by a subcontractor.

11. FORM FHWA-1273 REQUIRED CONTRACT PROVISIONS FEDERAL-AID CONTRACTS

(Excluding ATTACHMENT A - EMPLOYMENT AND MATERIALS PREFERENCE FOR APPALACHIAN DEVELOPMENT HIGHWAY SYSTEM OR APPALACHIAN LOCAL ACCESS ROAD CONTRACTS)

12. DBE RUNNING TALLY OF ATTAINMENTS

After submitting an invoice for reimbursement that includes a payment to a DBE, but no later than the 10th of the following month, the prime contractor/consultant shall complete and email the Exhibit 9-F: Disadvantaged Business Enterprise Running Tally of Payments to business.support.unit@dot.ca.gov with a copy to the Agency.

FHWA 1273 CERTIFICATION

The bidder, under penalty of perjury, certifies that, he/she or any other person associated therewith in the capacity of owner, partner, director, officer, manager, shall comply with the provisions of the Form FHWA 1273 included in the Special Provisions. The provisions apply to all work performed on the contract including work performed by subcontract. The unmodified Form FHWA 1273 is required to be physically incorporated into each contract, subcontract and subsequent lower-tier subcontracts. The provisions may not be incorporated by reference.

The prime contractor is responsible for compliance with the requirements by all subcontractors and lower tier subcontractors. Failure of the prime contractor to comply with this requirement is grounds for local agency termination of the contract with the contractor and debarment of the contractor by the FHWA.

A. Employment and Materials Preference for Appalachian Development Highway System or Appalachian Local Access Road Contracts (included in Appalachian contracts only)

I. GENERAL

1. Form FHWA-1273 must be physically incorporated in each construction contract funded under Title 23 (excluding emergency contracts solely intended for debris removal). The contractor (or subcontractor) must insert this form in each subcontract and further require its inclusion in all lower tier subcontracts (excluding purchase orders, rental agreements and other agreements for supplies or services).

The applicable requirements of Form FHWA-1273 are incorporated by reference for work done under any purchase order, rental agreement or agreement for other services. The prime contractor shall be responsible for compliance by any subcontractor, lower-tier subcontractor or service provider.

Form FHWA-1273 must be included in all Federal-aid design-build contracts, in all subcontracts and in lower tier subcontracts (excluding subcontracts for design services, purchase orders, rental agreements and other agreements for supplies or services). The design-builder shall be responsible for compliance by any subcontractor, lower-tier subcontractor or service provider.

Contracting agencies may reference Form FHWA-1273 in bid proposal or request for proposal documents, however, the Form FHWA-1273 must be physically incorporated (not referenced) in all contracts, subcontracts and lower-tier subcontracts (excluding purchase orders, rental agreements and other agreements for supplies or services related to a construction contract).

2. Subject to the applicability criteria noted in the following sections, these contract provisions shall apply to all work performed on the contract by the contractor's own organization and with the assistance of workers under the contractor's immediate superintendence and to all work performed on the contract by piecework, station work, or by subcontract.
3. A breach of any of the stipulations contained in these Required Contract Provisions may be sufficient grounds for withholding of progress payments, withholding of final payment, termination of the contract, suspension / debarment or any other action determined to be appropriate by the contracting agency and FHWA.
4. Selection of Labor: During the performance of this contract, the contractor shall not use convict labor for any purpose within the limits of a construction project on a Federal-aid highway unless it is labor performed by convicts who are on parole, supervised release, or probation. The term Federal-aid highway does not include roadways functionally classified as local roads or rural minor collectors.

II. NONDISCRIMINATION

The provisions of this section related to 23 CFR Part 230 are applicable to all Federal-aid construction contracts and to all related construction subcontracts of \$10,000 or more. The provisions of 23 CFR Part 230 are not applicable to material supply, engineering, or architectural service contracts.

In addition, the contractor and all subcontractors must comply with the following policies: Executive Order 11246, 41 CFR 60, 29 CFR 1625-1627, Title 23 USC Section 140, the Rehabilitation Act of 1973, as amended (29 USC 794), Title VI of the Civil Rights Act of 1964, as amended, and related regulations including 49 CFR Parts 21, 26 and 27; and 23 CFR Parts 200, 230, and 633.

The contractor and all subcontractors must comply with: the requirements of the Equal Opportunity Clause in 41 CFR 60-1.4(b) and, for all construction contracts exceeding \$10,000, the Standard Federal Equal Employment Opportunity Construction Contract Specifications in 41 CFR 60-4.3.

Note: The U.S. Department of Labor has exclusive authority to determine compliance with Executive Order 11246 and the policies of the Secretary of Labor including 41 CFR 60, and 29 CFR 1625-1627. The contracting agency and the FHWA have the authority and the responsibility to ensure compliance with Title 23 USC Section 140, the Rehabilitation Act of 1973, as amended (29 USC 794), and Title VI of the Civil Rights Act of 1964, as amended, and related regulations including 49 CFR Parts 21, 26 and 27; and 23 CFR Parts 200, 230, and 633.

The following provision is adopted from 23 CFR 230, Appendix A, with appropriate revisions to conform to the U.S. Department of Labor (US DOL) and FHWA requirements.

1. Equal Employment Opportunity: Equal employment opportunity (EEO) requirements not to discriminate and to take affirmative action to assure equal opportunity as set forth under laws, executive orders, rules, regulations (28 CFR 35, 29 CFR 1630, 29 CFR 1625-1627, 41 CFR 60 and 49 CFR 27) and orders of the Secretary of Labor as modified by the provisions prescribed herein, and imposed pursuant to 23 U.S.C. 140 shall constitute the EEO and specific affirmative action standards for the contractor's project activities under this contract. The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) set forth under 28 CFR 35 and 29 CFR 1630 are incorporated by reference in this contract. In the execution of this contract, the contractor agrees to comply with the following minimum specific requirement activities of EEO:

- a. The contractor will work with the contracting agency and the Federal Government to ensure that it has made every good faith effort to provide equal opportunity with respect to all of its terms and conditions of employment and in their review of activities under the contract.
- b. The contractor will accept as its operating policy the following statement:

"It is the policy of this Company to assure that applicants are employed, and that employees are treated during employment, without regard to their race, religion, sex, color, national origin, age or disability. Such action shall include: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship, pre-apprenticeship, and/or on-the-job training."

FHWA-1273 -- Revised May 1, 2012

2. EEO Officer: The contractor will designate and make known to the contracting officers and EEO Officer who will have the responsibility for and must be capable of effectively administering and promoting and active EEO program and who must be assigned adequate authority and responsibility to do so.

3. Dissemination of Policy: All members of the contractor's staff who are authorized to hire, supervise, promote, and discharge employees, or who recommend such action, or who are substantially involved in such action, will be made fully cognizant of, and will implement, the contractor's EEO policy and contractual responsibilities to provide EEO in each grade and classification of employment. To ensure that the above agreement will be met, the following actions will be taken as a minimum:

- a. Periodic meetings of supervisory and personnel office employees will be conducted before the start of work and then not less often than once every six months, at which time the contractor's EEO policy and its implementation will be reviewed and explained. The meetings will be conducted by the EEO Officer.
- b. All new supervisory or personnel office employees will be given a thorough indoctrination by the EEO Officer, covering all major aspects of the contractor's EEO obligations within thirty days following their reporting for duty with the contractor.
- c. All personnel who are engaged in direct recruitment for the project will be instructed by the EEO Officer in the contractor's procedures for locating and hiring minorities and women.
- d. Notices and posters setting forth the contractor's EEO policy will be placed in areas readily accessible to employees, applicants for employment and potential employees.
- e. The contractor's EEO policy and the procedures to implement such policy will be brought to the attention of employees by means of meetings, employee handbooks, or other appropriate means.

4. Recruitment: When advertising for employees, the contractor will include in all advertisements for employees the notation: "An Equal Opportunity Employer." All such advertisements will be placed in publications having a large circulation among minorities and women in the area from which the project work force would normally be derived.

- a. The contractor will, unless precluded by a valid bargaining agreement, conduct systematic and direct recruitment through public and private employee referral sources likely to yield qualified minorities and women. To meet this requirement, the contractor will identify sources of potential minority group employees, and establish with such identified sources procedures whereby minority and women applicants may be referred to the contractor for employment consideration.
- b. In the event the contractor has a valid bargaining agreement providing for exclusive hiring hall referrals, the contractor is expected to observe the provisions of that agreement to the extent that the system meets the contractor's compliance with EEO contract provisions. Where implementation of such an agreement has the effect of discriminating against minorities or women, or obligates the contractor to do the same, such implementation violates Federal nondiscrimination provisions.

- c. The contractor will encourage its present employees to refer minorities and women as applicants for employment. Information and procedures with regard to referring such applicants will be discussed with employees.

5. Personnel Actions: Wages, working conditions, and employee benefits shall be established and administered, and personnel actions of every type, including hiring, upgrading, promotion, transfer, demotion, layoff, and termination, shall be taken without regard to race, color, religion, sex, national origin, age or disability. The following procedures shall be followed:

- a. The contractor will conduct periodic inspections of project sites to insure that working conditions and employee facilities do not indicate discriminatory treatment of project site personnel.
- b. The contractor will periodically evaluate the spread of wages paid within each classification to determine any evidence of discriminatory wage practices.
- c. The contractor will periodically review selected personnel actions in depth to determine whether there is evidence of discrimination. Where evidence is found, the contractor will promptly take corrective action. If the review indicates that the discrimination may extend beyond the actions reviewed, such corrective action shall include all affected persons.
- d. The contractor will promptly investigate all complaints of alleged discrimination made to the contractor in connection with its obligations under this contract, will attempt to resolve such complaints, and will take appropriate corrective action within a reasonable time. If the investigation indicates that the discrimination may affect persons other than the complainant, such corrective action shall include such other persons. Upon completion of each investigation, the contractor will inform every complainant of all of their avenues of appeal.

6. Training and Promotion:

- a. The contractor will assist in locating, qualifying, and increasing the skills of minorities and women who are applicants for employment or current employees. Such efforts should be aimed at developing full journey level status employees in the type of trade or job classification involved.
- b. Consistent with the contractor's work force requirements and as permissible under Federal and State regulations, the contractor shall make full use of training programs, i.e., apprenticeship, and on-the-job training programs for the geographical area of contract performance. In the event a special provision for training is provided under this contract, this subparagraph will be superseded as indicated in the special provision. The contracting agency may reserve training positions for persons who receive welfare assistance in accordance with 23 U.S.C. 140(a).
- c. The contractor will advise employees and applicants for employment of available training programs and entrance requirements for each.
- d. The contractor will periodically review the training and promotion potential of employees who are minorities and women and will encourage eligible employees to apply for such training and promotion.

FHWA-1273 -- Revised May 1, 2012

7. Unions: If the contractor relies in whole or in part upon unions as a source of employees, the contractor will use good faith efforts to obtain the cooperation of such unions to increase opportunities for minorities and women. Actions by the contractor, either directly or through a contractor's association acting as agent, will include the procedures set forth below:

- a. The contractor will use good faith efforts to develop, in cooperation with the unions, joint training programs aimed toward qualifying more minorities and women for membership in the unions and increasing the skills of minorities and women so that they may qualify for higher paying employment.
- b. The contractor will use good faith efforts to incorporate an EEO clause into each union agreement to the end that such union will be contractually bound to refer applicants without regard to their race, color, religion, sex, national origin, age or disability.
- c. The contractor is to obtain information as to the referral practices and policies of the labor union except that to the extent such information is within the exclusive possession of the labor union and such labor union refuses to furnish such information to the contractor, the contractor shall so certify to the contracting agency and shall set forth what efforts have been made to obtain such information.
- d. In the event the union is unable to provide the contractor with a reasonable flow of referrals within the time limit set forth in the collective bargaining agreement, the contractor will, through independent recruitment efforts, fill the employment vacancies without regard to race, color, religion, sex, national origin, age or disability; making full efforts to obtain qualified and/or qualifiable minorities and women. The failure of a union to provide sufficient referrals (even though it is obligated to provide exclusive referrals under the terms of a collective bargaining agreement) does not relieve the contractor from the requirements of this paragraph. In the event the union referral practice prevents the contractor from meeting the obligations pursuant to Executive Order 11246, as amended, and these special provisions, such contractor shall immediately notify the contracting agency.

8. Reasonable Accommodation for Applicants / Employees with Disabilities: The contractor must be familiar with the requirements for and comply with the Americans with Disabilities Act and all rules and regulations established there under. Employers must provide reasonable accommodation in all employment activities unless to do so would cause an undue hardship.

9. Selection of Subcontractors, Procurement of Materials and Leasing of Equipment: The contractor shall not discriminate on the grounds of race, color, religion, sex, national origin, age or disability in the selection and retention of subcontractors, including procurement of materials and leases of equipment. The contractor shall take all necessary and reasonable steps to ensure nondiscrimination in the administration of this contract.

- a. The contractor shall notify all potential subcontractors and suppliers and lessors of their EEO obligations under this contract.
- b. The contractor will use good faith efforts to ensure subcontractor compliance with their EEO obligations.

10. Assurance Required by 49 CFR 26.13(b):

- a. The requirements of 49 CFR Part 26 and the State DOT's U.S. DOT-approved DBE program are incorporated by reference.
- b. The contractor or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of DOT-assisted contracts. Failure by the contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the contracting agency deems appropriate.

11. Records and Reports: The contractor shall keep such records as necessary to document compliance with the EEO requirements. Such records shall be retained for a period of three years following the date of the final payment to the contractor for all contract work and shall be available at reasonable times and places for inspection by authorized representatives of the contracting agency and the FHWA.

- a. The records kept by the contractor shall document the following:
 - (1) The number and work hours of minority and non-minority group members and women employed in each work classification on the project;
 - (2) The progress and efforts being made in cooperation with unions, when applicable, to increase employment opportunities for minorities and women; and
 - (3) The progress and efforts being made in locating, hiring, training, qualifying, and upgrading minorities and women.
- b. The contractors and subcontractors will submit an annual report to the contracting agency each July for the duration of the project, indicating the number of minority, women, and non-minority group employees currently engaged in each work classification required by the contract work. This information is to be reported on [Form FHWA-1391](#). The staffing data should represent the project work force on board in all or any part of the last payroll period preceding the end of July. If on-the-job training is being required by special provision, the contractor will be required to collect and report training data. The employment data should reflect the work force on board during all or any part of the last payroll period preceding the end of July.

III. NONSEGREGATED FACILITIES

This provision is applicable to all Federal-aid construction contracts and to all related construction subcontracts of \$10,000 or more.

The contractor must ensure that facilities provided for employees are provided in such a manner that segregation on the basis of race, color, religion, sex, or national origin cannot result. The contractor may neither require such segregated use by written or oral policies nor tolerate such use by employee custom. The contractor's obligation extends further to ensure that its employees are not assigned to perform their services at any location, under the contractor's control, where the facilities are segregated. The term "facilities" includes waiting rooms, work areas, restaurants and other eating areas, time clocks, restrooms, washrooms, locker rooms, and other storage or dressing areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing provided for employees. The contractor shall provide separate or single-user restrooms and necessary dressing or sleeping areas to assure privacy between sexes.

FHWA-1273 -- Revised May 1, 2012

IV. DAVIS-BACON AND RELATED ACT PROVISIONS

This section is applicable to all Federal-aid construction projects exceeding \$2,000 and to all related subcontracts and lower-tier subcontracts (regardless of subcontract size). The requirements apply to all projects located within the right-of-way of a roadway that is functionally classified as Federal-aid highway. This excludes roadways functionally classified as local roads or rural minor collectors, which are exempt. Contracting agencies may elect to apply these requirements to other projects.

The following provisions are from the U.S. Department of Labor regulations in 29 CFR 5.5 "Contract provisions and related matters" with minor revisions to conform to the FHWA-1273 format and FHWA program requirements.

1. Minimum wages

a. All laborers and mechanics employed or working upon the site of the work, will be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by regulations issued by the Secretary of Labor under the Copeland Act (29 CFR part 3)), the full amount of wages and bona fide fringe benefits (or cash equivalents thereof) due at time of payment computed at rates not less than those contained in the wage determination of the Secretary of Labor which is attached hereto and made a part hereof, regardless of any contractual relationship which may be alleged to exist between the contractor and such laborers and mechanics.

Contributions made or costs reasonably anticipated for bona fide fringe benefits under section 1(b)(2) of the Davis-Bacon Act on behalf of laborers or mechanics are considered wages paid to such laborers or mechanics, subject to the provisions of paragraph 1.d. of this section; also, regular contributions made or costs incurred for more than a weekly period (but not less often than quarterly) under plans, funds, or programs which cover the particular weekly period, are deemed to be constructively made or incurred during such weekly period. Such laborers and mechanics shall be paid the appropriate wage rate and fringe benefits on the wage determination for the classification of work actually performed, without regard to skill, except as provided in 29 CFR 5.5(a)(4). Laborers or mechanics performing work in more than one classification may be compensated at the rate specified for each classification for the time actually worked therein: Provided, That the employer's payroll records accurately set forth the time spent in each classification in which work is performed. The wage determination (including any additional classification and wage rates conformed under paragraph 1.b. of this section) and the Davis-Bacon poster (WH-1321) shall be posted at all times by the contractor and its subcontractors at the site of the work in a prominent and accessible place where it can be easily seen by the workers.

b. (1) The contracting officer shall require that any class of laborers or mechanics, including helpers, which is not listed in the wage determination and which is to be employed under the contract shall be classified in conformance with the wage determination. The contracting officer shall approve an additional classification and wage rate and fringe benefits therefore only when the following criteria have been met:

- (i) The work to be performed by the classification requested is not performed by a classification in the wage determination; and
 - (ii) The classification is utilized in the area by the construction industry; and
 - (iii) The proposed wage rate, including any bona fide fringe benefits, bears a reasonable relationship to the wage rates contained in the wage determination.
- (2) If the contractor and the laborers and mechanics to be employed in the classification (if known), or their representatives, and the contracting officer agree on the classification and wage rate (including the amount designated for fringe benefits where appropriate), a report of the action taken shall be sent by the contracting officer to the Administrator of the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, Washington, DC 20210. The Administrator, or an authorized representative, will approve, modify, or disapprove every additional classification action within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary.
 - (3) In the event the contractor, the laborers or mechanics to be employed in the classification or their representatives, and the contracting officer do not agree on the proposed classification and wage rate (including the amount designated for fringe benefits, where appropriate), the contracting officer shall refer the questions, including the views of all interested parties and the recommendation of the contracting officer, to the Wage and Hour Administrator for determination. The Wage and Hour Administrator, or an authorized representative, will issue a determination within 30 days of receipt and so advise the contracting officer or will notify the contracting officer within the 30-day period that additional time is necessary.
 - (4) The wage rate (including fringe benefits where appropriate) determined pursuant to paragraphs 1.b.(2) or 1.b.(3) of this section, shall be paid to all workers performing work in the classification under this contract from the first day on which work is performed in the classification.
- c. Whenever the minimum wage rate prescribed in the contract for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly rate, the contractor shall either pay the benefit as stated in the wage determination or shall pay another bona fide fringe benefit or an hourly cash equivalent thereof.
 - d. If the contractor does not make payments to a trustee or other third person, the contractor may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing bona fide fringe benefits under a plan or program, Provided, That the Secretary of Labor has found, upon the written request of the contractor, that the applicable standards of the Davis-Bacon Act have been met. The Secretary of Labor may require the contractor to set aside in a separate account assets for the meeting of obligations under the plan or program.

FHWA-1273 -- Revised May 1, 2012

2. Withholding

The contracting agency shall upon its own action or upon written request of an authorized representative of the Department of Labor, withhold or cause to be withheld from the contractor under this contract, or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to Davis-Bacon prevailing wage requirements, which is held by the same prime contractor, so much of the accrued payments or advances as may be considered necessary to pay laborers and mechanics, including apprentices, trainees, and helpers, employed by the contractor or any subcontractor the full amount of wages required by the contract. In the event of failure to pay any laborer or mechanic, including any apprentice, trainee, or helper, employed or working on the site of the work, all or part of the wages required by the contract, the contracting agency may, after written notice to the contractor, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds until such violations have ceased.

3. Payrolls and basic records

a. Payrolls and basic records relating thereto shall be maintained by the contractor during the course of the work and preserved for a period of three years thereafter for all laborers and mechanics working at the site of the work. Such records shall contain the name, address, and social security number of each such worker, his or her correct classification, hourly rates of wages paid (including rates of contributions or costs anticipated for bona fide fringe benefits or cash equivalents thereof of the types described in section 1(b)(2)(B) of the Davis-Bacon Act), daily and weekly number of hours worked, deductions made and actual wages paid. Whenever the Secretary of Labor has found under 29 CFR 5.5(a)(1)(iv) that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in section 1(b)(2)(B) of the Davis-Bacon Act, the contractor shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits. Contractors employing apprentices or trainees under approved programs shall maintain written evidence of the registration of apprenticeship programs and certification of trainee programs, the registration of the apprentices and trainees, and the ratios and wage rates prescribed in the applicable programs.

b. (1) The contractor shall submit weekly for each week in which any contract work is performed a copy of all payrolls to the contracting agency. The payrolls submitted shall set out accurately and completely all of the information required to be maintained under 29 CFR 5.5(a)(3)(i), except that full social security numbers and home addresses shall not be included on weekly transmittals. Instead the payrolls shall only need to include an individually identifying number for each employee (e.g. , the last four digits of the employee's social security number). The required weekly payroll information may be submitted in any form desired. Optional Form WH-347 is available for this purpose from the Wage and Hour Division Web site at <http://www.dol.gov/esa/whd/forms/wh347instr.htm> or its successor site. The prime contractor is responsible for the submission of copies of payrolls by all subcontractors. Contractors and subcontractors shall maintain the full social security number and

current address of each covered worker, and shall provide them upon request to the contracting agency for transmission to the State DOT, the FHWA or the Wage and Hour Division of the Department of Labor for purposes of an investigation or audit of compliance with prevailing wage requirements. It is not a violation of this section for a prime contractor to require a subcontractor to provide addresses and social security numbers to the prime contractor for its own records, without weekly submission to the contracting agency.

- (2) Each payroll submitted shall be accompanied by a "Statement of Compliance," signed by the contractor or subcontractor or his or her agent who pays or supervises the payment of the persons employed under the contract and shall certify the following:
 - (i) That the payroll for the payroll period contains the information required to be provided under §5.5 (a)(3)(ii) of Regulations, 29 CFR part 5, the appropriate information is being maintained under §5.5 (a)(3)(i) of Regulations, 29 CFR part 5, and that such information is correct and complete;
 - (ii) That each laborer or mechanic (including each helper, apprentice, and trainee) employed on the contract during the payroll period has been paid the full weekly wages earned, without rebate, either directly or indirectly, and that no deductions have been made either directly or indirectly from the full wages earned, other than permissible deductions as set forth in Regulations, 29 CFR part 3;
 - (iii) That each laborer or mechanic has been paid not less than the applicable wage rates and fringe benefits or cash equivalents for the classification of work performed, as specified in the applicable wage determination incorporated into the contract.
 - (3) The weekly submission of a properly executed certification set forth on the reverse side of Optional Form WH-347 shall satisfy the requirement for submission of the "Statement of Compliance" required by paragraph 3.b.(2) of this section.
 - (4) The falsification of any of the above certifications may subject the contractor or subcontractor to civil or criminal prosecution under section 1001 of title 18 and section 231 of title 31 of the United States Code.
- c. The contractor or subcontractor shall make the records required under paragraph 3.a. of this section available for inspection, copying, or transcription by authorized representatives of the contracting agency, the State DOT, the FHWA, or the Department of Labor, and shall permit such representatives to interview employees during working hours on the job. If the contractor or subcontractor fails to submit the required records or to make them available, the FHWA may, after written notice to the contractor, the contracting agency or the State DOT, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds. Furthermore, failure to submit the required records upon request or to make such records available may be grounds for debarment action pursuant to 29 CFR 5.12.

FHWA-1273 -- Revised May 1, 2012

4. Apprentices and trainees

a. Apprentices (programs of the USDOL).

Apprentices will be permitted to work at less than the predetermined rate for the work they performed when they are employed pursuant to and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Employment and Training Administration, Office of Apprenticeship Training, Employer and Labor Services, or with a State Apprenticeship Agency recognized by the Office, or if a person is employed in his or her first 90 days of probationary employment as an apprentice in such an apprenticeship program, who is not individually registered in the program, but who has been certified by the Office of Apprenticeship Training, Employer and Labor Services or a State Apprenticeship Agency (where appropriate) to be eligible for probationary employment as an apprentice.

The allowable ratio of apprentices to journeymen on the job site in any craft classification shall not be greater than the ratio permitted to the contractor as to the entire work force under the registered program. Any worker listed on a payroll at an apprentice wage rate, who is not registered or otherwise employed as stated above, shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any apprentice performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. Where a contractor is performing construction on a project in a locality other than that in which its program is registered, the ratios and wage rates (expressed in percentages of the journeyman's hourly rate) specified in the contractor's or subcontractor's registered program shall be observed.

Every apprentice must be paid at not less than the rate specified in the registered program for the apprentice's level of progress, expressed as a percentage of the journeymen hourly rate specified in the applicable wage determination. Apprentices shall be paid fringe benefits in accordance with the provisions of the apprenticeship program. If the apprenticeship program does not specify fringe benefits, apprentices must be paid the full amount of fringe benefits listed on the wage determination for the applicable classification. If the Administrator determines that a different practice prevails for the applicable apprentice classification, fringes shall be paid in accordance with that determination.

In the event the Office of Apprenticeship Training, Employer and Labor Services, or a State Apprenticeship Agency recognized by the Office, withdraws approval of an apprenticeship program, the contractor will no longer be permitted to utilize apprentices at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

b. Trainees (programs of the USDOL).

Except as provided in 29 CFR 5.16, trainees will not be permitted to work at less than the predetermined rate for the work performed unless they are employed pursuant to and individually registered in a program which has received prior approval, evidenced by formal certification by the U.S. Department of Labor, Employment and Training Administration.

The ratio of trainees to journeymen on the job site shall not be greater than permitted under the plan approved by the Employment and Training Administration.

Every trainee must be paid at not less than the rate specified in the approved program for the trainee's level of progress, expressed as a percentage of the journeyman hourly rate specified in the applicable wage determination. Trainees shall be paid fringe benefits in accordance with the provisions of the trainee program. If the trainee program does not mention fringe benefits, trainees shall be paid the full amount of fringe benefits listed on the wage determination unless the Administrator of the Wage and Hour Division determines that there is an apprenticeship program associated with the corresponding journeyman wage rate on the wage determination which provides for less than full fringe benefits for apprentices. Any employee listed on the payroll at a trainee rate who is not registered and participating in a training plan approved by the Employment and Training Administration shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any trainee performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed.

In the event the Employment and Training Administration withdraws approval of a training program, the contractor will no longer be permitted to utilize trainees at less than the applicable predetermined rate for the work performed until an acceptable program is approved.

c. Equal employment opportunity. The utilization of apprentices, trainees and journeymen under this part shall be in conformity with the equal employment opportunity requirements of Executive Order 11246, as amended, and 29 CFR part 30.

d. Apprentices and Trainees (programs of the U.S. DOT).

Apprentices and trainees working under apprenticeship and skill training programs which have been certified by the Secretary of Transportation as promoting EEO in connection with Federal-aid highway construction programs are not subject to the requirements of paragraph 4 of this Section IV. The straight time hourly wage rates for apprentices and trainees under such programs will be established by the particular programs. The ratio of apprentices and trainees to journeymen shall not be greater than permitted by the terms of the particular program.

5. Compliance with Copeland Act requirements. The contractor shall comply with the requirements of 29 CFR part 3, which are incorporated by reference in this contract.

6. Subcontracts. The contractor or subcontractor shall insert Form FHWA-1273 in any subcontracts and also require the subcontractors to include Form FHWA-1273 in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all the contract clauses in 29 CFR 5.5.

7. Contract termination: debarment. A breach of the contract clauses in 29 CFR 5.5 may be grounds for termination of the contract, and for debarment as a contractor and a subcontractor as provided in 29 CFR 5.12.

FHWA-1273 -- Revised May 1, 2012

8. Compliance with Davis-Bacon and Related Act requirements.

All rulings and interpretations of the Davis-Bacon and Related Acts contained in 29 CFR parts 1, 3, and 5 are herein incorporated by reference in this contract.

9. Disputes concerning labor standards. Disputes arising out of the labor standards provisions of this contract shall not be subject to the general disputes clause of this contract. Such disputes shall be resolved in accordance with the procedures of the Department of Labor set forth in 29 CFR parts 5, 6, and 7. Disputes within the meaning of this clause include disputes between the contractor (or any of its subcontractors) and the contracting agency, the U.S. Department of Labor, or the employees or their representatives.

10. Certification of eligibility.

- a. By entering into this contract, the contractor certifies that neither it (nor he or she) nor any person or firm who has an interest in the contractor's firm is a person or firm ineligible to be awarded Government contracts by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1).
- b. No part of this contract shall be subcontracted to any person or firm ineligible for award of a Government contract by virtue of section 3(a) of the Davis-Bacon Act or 29 CFR 5.12(a)(1).
- c. The penalty for making false statements is prescribed in the U.S. Criminal Code, 18 U.S.C. 1001.

V. CONTRACT WORK HOURS AND SAFETY STANDARDS ACT

The following clauses apply to any Federal-aid construction contract in an amount in excess of \$100,000 and subject to the overtime provisions of the Contract Work Hours and Safety Standards Act. These clauses shall be inserted in addition to the clauses required by 29 CFR 5.5(a) or 29 CFR 4.6. As used in this paragraph, the terms laborers and mechanics include watchmen and guards.

1. Overtime requirements. No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

2. Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph (1.) of this section, the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph(1.) of this section, in the sum of \$10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (1.) of this section.

3. Withholding for unpaid wages and liquidated damages. The FHWA or the contracting agency shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (2.) of this section.

4. Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (1.) through (4.) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (1.) through (4.) of this section.

VI. SUBLETTING OR ASSIGNING THE CONTRACT

This provision is applicable to all Federal-aid construction contracts on the National Highway System.

1. The contractor shall perform with its own organization contract work amounting to not less than 30 percent (or a greater percentage if specified elsewhere in the contract) of the total original contract price, excluding any specialty items designated by the contracting agency. Specialty items may be performed by subcontract and the amount of any such specialty items performed may be deducted from the total original contract price before computing the amount of work required to be performed by the contractor's own organization (23 CFR 635.116).
 - a. The term "perform work with its own organization" refers to workers employed or leased by the prime contractor, and equipment owned or rented by the prime contractor, with or without operators. Such term does not include employees or equipment of a subcontractor or lower tier subcontractor, agents of the prime contractor, or any other assignees. The term may include payments for the costs of hiring leased employees from an employee leasing firm meeting all relevant Federal and State regulatory requirements. Leased employees may only be included in this term if the prime contractor meets all of the following conditions:
 - (1) the prime contractor maintains control over the supervision of the day-to-day activities of the leased employees;
 - (2) the prime contractor remains responsible for the quality of the work of the leased employees;
 - (3) the prime contractor retains all power to accept or exclude individual employees from work on the project; and
 - (4) the prime contractor remains ultimately responsible for the payment of predetermined minimum wages, the submission of payrolls, statements of compliance and all other Federal regulatory requirements.
 - b. "Specialty Items" shall be construed to be limited to work that requires highly specialized knowledge, abilities, or equipment not ordinarily available in the type of contracting organizations qualified and expected to bid or propose on the contract as a whole and in general are to be limited to minor components of the overall contract.

2. The contract amount upon which the requirements set forth in paragraph (1) of Section VI is computed includes the cost of material and manufactured products which are to be purchased or produced by the contractor under the contract provisions.
3. The contractor shall furnish (a) a competent superintendent or supervisor who is employed by the firm, has full authority to direct performance of the work in accordance with the contract requirements, and is in charge of all construction operations (regardless of who performs the work) and (b) such other of its own organizational resources (supervision, management, and engineering services) as the contracting officer determines is necessary to assure the performance of the contract.
4. No portion of the contract shall be sublet, assigned or otherwise disposed of except with the written consent of the contracting officer, or authorized representative, and such consent when given shall not be construed to relieve the contractor of any responsibility for the fulfillment of the contract. Written consent will be given only after the contracting agency has assured that each subcontract is evidenced in writing and that it contains all pertinent provisions and requirements of the prime contract.
5. The 30% self-performance requirement of paragraph (1) is not applicable to design-build contracts; however, contracting agencies may establish their own self-performance requirements.

VII. SAFETY: ACCIDENT PREVENTION

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts.

1. In the performance of this contract the contractor shall comply with all applicable Federal, State, and local laws governing safety, health, and sanitation (23 CFR 635). The contractor shall provide all safeguards, safety devices and protective equipment and take any other needed actions as it determines, or as the contracting officer may determine, to be reasonably necessary to protect the life and health of employees on the job and the safety of the public and to protect property in connection with the performance of the work covered by the contract.
2. It is a condition of this contract, and shall be made a condition of each subcontract, which the contractor enters into pursuant to this contract, that the contractor and any subcontractor shall not permit any employee, in performance of the contract, to work in surroundings or under conditions which are unsanitary, hazardous or dangerous to his/her health or safety, as determined under construction safety and health standards (29 CFR 1926) promulgated by the Secretary of Labor, in accordance with Section 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 3704).
3. Pursuant to 29 CFR 1926.3, it is a condition of this contract that the Secretary of Labor or authorized representative thereof, shall have right of entry to any site of contract performance to inspect or investigate the matter of compliance with the construction safety and health standards and to carry out the duties of the Secretary under Section 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C.3704).

VIII. FALSE STATEMENTS CONCERNING HIGHWAY PROJECTS

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts.

In order to assure high quality and durable construction in conformity with approved plans and specifications and a high degree of reliability on statements and representations made by engineers, contractors, suppliers, and workers on Federal-aid highway projects, it is essential that all persons concerned with the project perform their functions as carefully, thoroughly, and honestly as possible. Willful falsification, distortion, or misrepresentation with respect to any facts related to the project is a violation of Federal law. To prevent any misunderstanding regarding the seriousness of these and similar acts, Form FHWA-1022 shall be posted on each Federal-aid highway project (23 CFR 635) in one or more places where it is readily available to all persons concerned with the project:

18 U.S.C. 1020 reads as follows:

"Whoever, being an officer, agent, or employee of the United States, or of any State or Territory, or whoever, whether a person, association, firm, or corporation, knowingly makes any false statement, false representation, or false report as to the character, quality, quantity, or cost of the material used or to be used, or the quantity or quality of the work performed or to be performed, or the cost thereof in connection with the submission of plans, maps, specifications, contracts, or costs of construction on any highway or related project submitted for approval to the Secretary of Transportation; or

Whoever knowingly makes any false statement, false representation, false report or false claim with respect to the character, quality, quantity, or cost of any work performed or to be performed, or materials furnished or to be furnished, in connection with the construction of any highway or related project approved by the Secretary of Transportation; or

Whoever knowingly makes any false statement or false representation as to material fact in any statement, certificate, or report submitted pursuant to provisions of the Federal-aid Roads Act approved July 1, 1916, (39 Stat. 355), as amended and supplemented;

Shall be fined under this title or imprisoned not more than 5 years or both."

IX. IMPLEMENTATION OF CLEAN AIR ACT AND FEDERAL WATER POLLUTION CONTROL ACT

This provision is applicable to all Federal-aid construction contracts and to all related subcontracts.

By submission of this bid/proposal or the execution of this contract, or subcontract, as appropriate, the bidder, proposer, Federal-aid construction contractor, or subcontractor, as appropriate, will be deemed to have stipulated as follows:

1. That any person who is or will be utilized in the performance of this contract is not prohibited from receiving an award due to a violation of Section 508 of the Clean Water Act or Section 306 of the Clean Air Act.
2. That the contractor agrees to include or cause to be included the requirements of paragraph (1) of this Section X in every subcontract, and further agrees to take such action as the contracting agency may direct as a means of enforcing such requirements.

FHWA-1273 -- Revised May 1, 2012

X. CERTIFICATION REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY AND VOLUNTARY EXCLUSION

This provision is applicable to all Federal-aid construction contracts, design-build contracts, subcontracts, lower-tier subcontracts, purchase orders, lease agreements, consultant contracts or any other covered transaction requiring FHWA approval or that is estimated to cost \$25,000 or more – as defined in 2 CFR Parts 180 and 1200.

1. Instructions for Certification – First Tier Participants:

- a. By signing and submitting this proposal, the prospective first tier participant is providing the certification set out below.
- b. The inability of a person to provide the certification set out below will not necessarily result in denial of participation in this covered transaction. The prospective first tier participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective first tier participant to furnish a certification or an explanation shall disqualify such a person from participation in this transaction.
- c. The certification in this clause is a material representation of fact upon which reliance was placed when the contracting agency determined to enter into this transaction. If it is later determined that the prospective participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the contracting agency may terminate this transaction for cause of default.
- d. The prospective first tier participant shall provide immediate written notice to the contracting agency to whom this proposal is submitted if any time the prospective first tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
- e. The terms "covered transaction," "debarred," "suspended," "ineligible," "participant," "person," "principal," and "voluntarily excluded," as used in this clause, are defined in 2 CFR Parts 180 and 1200. "First Tier Covered Transactions" refers to any covered transaction between a grantee or subgrantee of Federal funds and a participant (such as the prime or general contract). "Lower Tier Covered Transactions" refers to any covered transaction under a First Tier Covered Transaction (such as subcontracts). "First Tier Participant" refers to the participant who has entered into a covered transaction with a grantee or subgrantee of Federal funds (such as the prime or general contractor). "Lower Tier Participant" refers any participant who has entered into a covered transaction with a First Tier Participant or other Lower Tier Participants (such as subcontractors and suppliers).
- f. The prospective first tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency entering into this transaction.
- g. The prospective first tier participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transactions," provided by the department or contracting agency, entering into this covered

transaction, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions exceeding the \$25,000 threshold.

- h. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant is responsible for ensuring that its principals are not suspended, debarred, or otherwise ineligible to participate in covered transactions. To verify the eligibility of its principals, as well as the eligibility of any lower tier prospective participants, each participant may, but is not required to, check the Excluded Parties List System website (<https://www.epls.gov/>), which is compiled by the General Services Administration.
- i. Nothing contained in the foregoing shall be construed to require the establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of the prospective participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
- j. Except for transactions authorized under paragraph (f) of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.

* * *

2. Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion – First Tier Participants:

- a. The prospective first tier participant certifies to the best of its knowledge and belief, that it and its principals:
 - (1) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participating in covered transactions by any Federal department or agency;
 - (2) Have not within a three-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
 - (3) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (a)(2) of this certification; and
 - (4) Have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.
- b. Where the prospective participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

FHWA-1273 -- Revised May 1, 2012

2. Instructions for Certification - Lower Tier Participants:

(Applicable to all subcontracts, purchase orders and other lower tier transactions requiring prior FHWA approval or estimated to cost \$25,000 or more - 2 CFR Parts 180 and 1200)

- a. By signing and submitting this proposal, the prospective lower tier is providing the certification set out below.
- b. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department, or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.
- c. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous by reason of changed circumstances.
- d. The terms "covered transaction," "debarred," "suspended," "ineligible," "participant," "person," "principal," and "voluntarily excluded," as used in this clause, are defined in 2 CFR Parts 180 and 1200. You may contact the person to which this proposal is submitted for assistance in obtaining a copy of those regulations. "First Tier Covered Transactions" refers to any covered transaction between a grantee or subgrantee of Federal funds and a participant (such as the prime or general contract). "Lower Tier Covered Transactions" refers to any covered transaction under a First Tier Covered Transaction (such as subcontracts). "First Tier Participant" refers to the participant who has entered into a covered transaction with a grantee or subgrantee of Federal funds (such as the prime or general contractor). "Lower Tier Participant" refers to any participant who has entered into a covered transaction with a First Tier Participant or other Lower Tier Participants (such as subcontractors and suppliers).
- e. The prospective lower tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.
- f. The prospective lower tier participant further agrees by submitting this proposal that it will include this clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transaction," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions exceeding the \$25,000 threshold.

Federal Trainee Program Special
Provisions (to be used
when applicable)

15. FEDERAL TRAINEE PROGRAM

For the Federal training program, the number of trainees or apprentices is .

This section applies if a number of trainees or apprentices is specified in the special provisions.

As part of your equal opportunity affirmative action program, provide on-the-job training to develop full journeymen in the types of trades or job classifications involved.

You have primary responsibility for meeting this training requirement.

If you subcontract a contract part, determine how many trainees or apprentices are to be trained by the subcontractor. Include these training requirements in your subcontract.

Where feasible, 25 percent of apprentices or trainees in each occupation must be in their 1st year of apprenticeship or training.

Distribute the number of apprentices or trainees among the work classifications on the basis of your needs and the availability of journeymen in the various classifications within a reasonable recruitment area.

Before starting work, submit to the City/County of ___:

1. Number of apprentices or trainees to be trained for each classification
2. Training program to be used

3. Training starting date for each classification

Obtain the City/County's of ____ approval for this submitted information before you start work.
The

City/County of ____ credits you for each apprentice or trainee you employ on the work who is currently enrolled or becomes enrolled in an approved program.

The primary objective of this section is to train and upgrade minorities and women toward journeymen status. Make every effort to enroll minority and women apprentices or trainees, such as conducting systematic and direct recruitment through public and private sources likely to yield minority and women apprentices or trainees, to the extent they are available within a reasonable recruitment area. Show that you have made the efforts. In making these efforts, do not discriminate against any applicant for training.

Do not employ as an apprentice or trainee an employee:

1. In any classification in which the employee has successfully completed a training course leading to journeyman status or in which the employee has been employed as a journeyman
2. Who is not registered in a program approved by the US Department of Labor, Bureau of Apprenticeship and Training

Ask the employee if the employee has successfully completed a training course leading to journeyman status or has been employed as a journeyman. Your records must show the employee's answers to the questions.

In your training program, establish the minimum length and training type for each classification. The City/County of _____ and FHWA approves a program if one of the following is met:

1. It is calculated to:
 - Meet the your equal employment opportunity responsibilities
 - Qualify the average apprentice or trainee for journeyman status in the classification involved by the end of the training period
2. It is registered with the U.S. Department of Labor, Bureau of Apprenticeship and Training, and it is administered in a way consistent with the equal employment responsibilities of Federal-aid highway construction contracts

Obtain the State's approval for your training program before you start work involving the classification covered by the program.

Provide training in the construction crafts, not in clerk-typist or secretarial-type positions. Training is allowed in lower level management positions such as office engineers, estimators, and timekeepers if the training is oriented toward construction applications. Training is allowed in the laborer classification if significant and meaningful training is provided and approved by the division office. Off-site training is allowed if the training is an integral part of an approved training program and does not make up a significant part of the overall training.

The City/County of__reimburses you 80 cents per hour of training given an employee on this contract under an approved training program:

For on-site training

1. For off-site training if the apprentice or trainee is currently employed on a Federal-aid project and you do at least one of the following:
 - Contribute to the cost of the training
 - Provide the instruction to the apprentice or trainee
 - Pay the apprentice's or trainee's wages during the off-site training period
3. If you comply this section.

Each apprentice or trainee must:

1. Begin training on the project as soon as feasible after the start of work involving the apprentice's or trainee's skill
2. Remain on the project as long as training opportunities exist in the apprentice's or trainee's work classification or until the apprentice or trainee has completed the training program

Furnish the apprentice or trainee:

If the matter remains in dispute after nonbinding mediation, the court shall submit the matter to judicial arbitration pursuant to Code of Civil Procedure Section 1141.10 et seq. If the matter remains in dispute after judicial arbitration, the County or the Contractor may request a trial de novo.

When paving contiguously with previously placed mats, the end of the screed adjacent to the previously placed mat shall be controlled by a sensor that responds to the grade of the previously placed mat and will reproduce the grade in the new mat within a 0.01 foot tolerance. The end of the screed farthest from the previously placed mat shall be controlled in the same manner as when placing the initial mat.

Should the methods and equipment furnished by the Contractor fail to produce a layer of asphalt concrete conforming to the requirements, including straightedge tolerance, of Section 39-6.03, “Compacting,” of the Standard Specifications, the paving operations shall be discontinued and the Contractor shall modify his equipment or furnish substitute equipment.

Should the automatic screed controls fail to operate properly during any day’s work, the Contractor may use manual control of the spreading equipment for the remainder of that day, however, the equipment shall be corrected or replaced with alternative automatically controlled equipment conforming to the requirements in this section before starting another day’s work.

Asphalt concrete surfacing shall be placed on all existing surfacing or as directed by the Engineer.

Asphalt concrete shall be produced at an established commercial mixing plant. The aggregate and asphalt binder shall be heated and mixed thoroughly.

Prior to spreading asphalt concrete over any existing pavement or previously laid pavement a paint-binder of SS1h shall be furnished and applied uniformly to a pavement to be surfaced and to contact surfaces of all cold pavement joints, curbs, gutters, and to other surfaces designated by the Engineer.

Paint Binder shall be applied at a rate of 0.02 to 0.10-gallon per square yard. The exact rate and number of applications will be determined by the Engineer.

Paint Binder shall be applied only so far in advance of placing the surfacing as may be permitted by Engineer. The area to which paint binder has been applied shall be closed to public traffic. Care shall be taken to avoid tracking binder material onto existing pavement surfaces beyond the limits of construction.

The provisions of Section 4-1.03B "Increased or Decreased Quantities" of the Standard Specifications, will not apply to liquid asphalt PG 70-10, SS1h prime coat or paint binder.

Asphalt concrete shall be spread and compacted in accordance with Section 39, "Asphalt Concrete", of the Standard Specifications and these special provisions.

It shall be the contractor's responsibility to complete a field survey to determine the actual number of survey monuments to be impacted prior to construction. The field survey research shall include researching of survey monuments record/maps; completion of the field investigation to determine the existence/locations of the survey monuments prior to the commencement of construction activities for all roads impacted; placement of a flagged lath adjacent to the found monument indicating the direction and the distance of the monument from the lath; preparation of field notes for each found monument illustrating relative dimensions from the surrounding existing objects and the descriptions of the monuments; reporting to the County Surveyor/County of Imperial Public Works Department Director of the found monuments to evaluate the necessity to furnish a new survey monument for each found monument and to report the locations and the conditions of the found monuments; and all necessary field coordination with the Contractor to preserve/perpetuate the found monuments. Full compensation for completing field survey research to determine the existence/locations of the survey monuments shall be considered as included in the contract lump sum price paid for "Monument Preservation/Perpetuation" and no additional compensation shall be allowed therefore.

Any existing survey monuments or County recognized benchmarks shall be protected by the Contractor. Should any such monuments or benchmarks be removed, damaged, obliterated or

altered by the Contractor's operations, the Contractor shall be responsible for preservation or perpetuation by the proper resetting of the same as per the Subdivision Map Act, the Professional Land Surveyors Act and to the satisfaction of the County Surveyor/Director of Public Works Department. Such points shall be preserved or perpetuated with appropriate monumentation by a licensed land surveyor or a registered civil engineer authorized to practice land surveying.

All preserved or perpetuated survey monuments shall be protected by new ductile iron monument wells. The Contractor shall supply a new ductile iron monument well for each monument and horizontally position the monument well per the direction of the licensed land surveyor or registered civil engineer after the placement of the new pavement. The Contractor shall place a 12 inch wide, 12 inch deep P.C.C. concrete ring concentric with the exterior of the monument well per the County of Imperial Standards at the time the monument well is placed. Corner Records or a Record of Survey as appropriate shall be filed by the licensed land surveyor or registered civil engineer authorized to practice land surveying.

The Contractor shall be paid for preservation/perpetuation of survey monuments/benchmarks on a lump sum basis for all survey monument/benchmark to be preserved/perpetuated for all road locations encompassed in this project. The work associated with the preservation/perpetuation of the survey monuments/benchmarks shall include filing appropriate survey documentations/maps before and after the preservation/perpetuation of the survey monuments; jack hammering/sawcutting the new pavement surface to allow the installation of the new P.C.C. concrete ring and positioning of the monument well cover 3/8 inches below the new finish pavement surface; backfilling the monument well with compacted Class 2 Base; plumbing monument well; leveling monument well frames and covers; furnishing new brass disks with punching and marking for survey monuments, if necessary; preservation/perpetuation of survey monuments; installation of new P.C.C. concrete rings circumferentially around the monument well covers; removal and disposal of construction demolition material associated with the installation of survey monument wells and all other items incidental to preserving/perpetuating survey monuments in accordance with the Subdivision Map Act, the Professional Land Surveyors Act and to the satisfaction of the County Surveyor/Director of Public Works Department.

In the event that additional survey monument/benchmark are identify after the initial survey must be preserved/perpetuated with no additional compensation therefore.

10-1.18 EROSION CONTROL – Best Management Practices (BMP) shall be placed. Full compensation for providing all BMP items and responsibilities shall be considered as included in the lump sum item for “Erosion Control” and no additional payment shall be made therefore.

As a minimum the following BMP's shall be installed:

- Temporary Drainage inlet protection – Provide Filter Rolls or Trap by every storm drain inlet to prevent sediment from entering drain system.
- Temporary Drainage inlet protection – Gravel bags shall be placed around existing and proposed catch basins

- Placement of Hay bale filters along the existing flow line along the construction road. (Both Sides)
- Stabilized Construction entrance

10-1.19 ENVIRONMENTAL MITIGATION – The following conditions apply to this project and shall be complied by the contractor

BIOLOGY CONDITIONS:

- No removal of vegetation is necessary, or will be authorized, as part of the proposed project activities.
- Staging or storage areas will occur in paved areas or level areas devoid of vegetation or animal burrows.
- Shoulder backing shall be placed in bare areas or areas where shoulder backing already exists and will avoid animal burrows.
- If modifications are made to the project plans, such as identification of staging areas, the Office of Environmental Stewardship and Ecological Studies must be notified so that a reevaluation may be completed.
- Possible work debris or runoff shall be restricted to the work area directed away from the drainages to prevent into the waterways.

The Contractors attention is directed to Section 14, “Environmental Stewardship” of the 2018 State of California Department of Transportation Standard Specifications and these special provisions for the specifications related to environmental compliance and environmental resource management including: species protection, air pollution control, and work area monitoring.

Species Protection

To address the potential presence of burrowing owls adjacent to the project site, all construction would be done September 1-January 31 to avoid the owl nesting season.

A pre-construction survey for burrowing owls would be done by a qualified biologist within 14 days prior to construction, during the appropriate time of day to maximize the chance of detection (sunrise to 1000, and within two hours before sunset). The survey will cover the road reach to be paved, staging locations, and any other areas required for construction. The survey will extend to all accessible, potential owl habitat areas within a 500 foot buffer.

Disturbance to active burrows will be avoided. If any active burrows are found, hay bales, or other temporary barriers would be placed to shelter burrowing owls in place, if determined to be warranted by the biologist. Visible markers may also be placed at the discretion of the biologist. The biologist will also be present during work near occupied burrows, working with the resident engineer/inspector and contractor to avoid impacts.

Air Quality

Comply with air-pollution-control rules, regulations, ordinances, and statutes that apply to work performed under the Contract, including those provided in Govt Code § 11017 (Pub Cont Code § 10231).

Do not dispose of material by burning.

The US EPA has established the National Emission Standards for Hazardous Air Pollutants (NESHAP). Under the Health & Safety Code § 39658(b)(1), your demolition and rehabilitation activities must comply with 40 CFR 61, Subpart M (National Emission Standard for Asbestos).

The Initial Site Assessment (ISA) includes asbestos survey and sampling analysis for this project and is included in the *Information Handout*.

Notify the US EPA and the California Air Resources Board of your demolition activities even if the activities will not disturb asbestos-containing material.

You may obtain an Asbestos NESHAP Notification of Demolition and Renovation Form at the California Air Resources Board's website:

<http://www.arb.ca.gov/enf/asbestos/asbestos.htm>

Instead of the 10 working days specified at the website, mail or deliver the form with the necessary attachments at least 15 days before starting demolition or rehabilitation activities to:

US EPA - REGION IX
ASBESTOS NESHAP NOTIFICATION (AIR-5)
75 HAWTHORNE ST
SAN FRANCISCO, CA 94105

Mail or fax a copy of the notification form to:

CALIFORNIA AIR RESOURCES BOARD
ENFORCEMENT DIVISION
ASBESTOS NESHAP NOTIFICATION
P.O. BOX 2815
SACRAMENTO, CA 95812
FAX: (916) 229-0645

Submit a copy of the notification form and attachments as informational submittals before starting demolition or rehabilitation activities.

If you discover unanticipated asbestos-containing material during the demolition or rehabilitation activities, immediately stop work in that area and notify the Engineer. The Department will use other forces to remove and dispose of the material. Do not resume work in the area until authorized.

Notify the California Air Resources Board of a change to your demolition or rehabilitation activities, including a revised work plan or the discovery of unanticipated asbestos-containing materials, within 2 days of the change or discovery.

Full compensation for furnishing all labor, materials, tools, equipment and incidentals, and for doing all the work to comply with the environmental section shall be considered as included in the contract price per lump sum for “Environmental Mitigation”, and no separate payment will be made therefore.

10-1.20 MOBILIZATION - Mobilization shall consist of preparatory work and operations including, but not limited to, those necessary for the movement of personnel, equipment, supplies and incidentals to the Project site for all other work and operations that must be performed or costs incurred before beginning work on the various Contract items on the Project site.

Mobilization shall include, but not be limited to, the following items, all as required for the proper performance and completion of the work:

1. Obtaining all permits, licenses, insurance (general liability insurance, workman’s compensation insurance, vehicle insurance, etc.), and bonds (performance, payment, etc.). Providing copies to the ENGINEER. Paying the fees, taxes and freight costs;
2. Obtaining a staging area(s);

All costs incurred for the mobilization and the associated work and any other work items not specifically included in other bid items shall be included in the Bid Item for the “Mobilization” cost and no additional compensation shall be provided therefore.

10-1.21 CRACK SEALING – The crack sealant shall be composed of a hot-applied elastically modified asphalt composition. The crack sealant shall be produced for hot climates.

PROCEDURE

The crack sealant shall be melted in a jacketed double boiler type melting unit which is equipped with both agitation and recirculation systems. The temperature of the heat transfer oil in the melting unit should not exceed 525°F (274°C) during melting of the sealant. The melting unit must be capable of safely heating the sealant to 410°F (210°C). The melting unit shall comply with the requirements of application equipment in Appendix X1.1 of ASTM D3405. Prior to applying the sealant, it should be heated to a temperature between the recommended pour temperature and the safe heating temperature as illustrated on the sealant containers. Temperatures exceeding the safe heating temperature will reduce the application life of the crack sealant. The pavement surface temperature shall be greater than 40°F prior to the application of the crack sealant. The pavement surface shall be dry. Cracks and joints shall be cleaned using appropriate routing, brushing or blowing operations to provide sufficient contact bonding surfaces. The Contractor shall apply a herbicide to any cracks which exhibit vegetative growth 0 days prior to the commencement of construction activities. Contractor shall sweep the streets to be crack sealed within two (2) weeks prior to crack sealing. The cracks shall be free from dust, moisture, debris, loose particles and other contaminants. Cracks 1/8 inch wide or greater shall be routed to a minimum width of 3/8 inch (1 cm) and a minimum depth of 1/2 inch (1.3 cm). The crack depth to width ratio shall not exceed 2 to 1 prior to applying the crack sealant. Following appropriate cleaning, sealant shall be applied to a slightly overfilled condition and then leveled with a squeegee in a narrow (2 to 4 inch wide) band across the crack with an overlap beyond the crack edges. Sealant height shall not exceed 1/8-inch (3 mm) above the pavement surface. A Crafcro DETACK product or an approved equal shall be applied to the crack sealant product after application to reduce the tackiness and resultant “tracking” of the sealant by vehicular traffic.

The crack sealant shall be in accordance with the following specifications:

<u>TEST</u>	<u>SPECIFICATION</u>
Cone penetration (ASTM D5329)	15-45
Resilience (ASTM D5329)	30% Minimum
Softening Point (ASTM D36)	200°F (93°C) Minimum
Ductility, 77°F (25°C) (ASTM D113)	30 cm Minimum

Flexibility (Crafco Procedure)	Pass at 30°F (-1°C)
Asphalt Compatibility (ASTM D5329)	Pass
Bitumen Content (ASTM D4)	60% Minimum
Tensile Adhesion (ASTM D5329)	400% Minimum
Safe Heating Temperature	400°F (204°C)
Recommended Pour Temperature	380°F (193°C)

The crack sealant shall be a Crafco Polyflex Type 3 material or an approved equal. After the crack sealant material is applied, the debris, loose particles, dirt and pavement residue resultant from the crack cleaning and routing operation shall be removed and disposed of by the Contractor. The Contractor shall remove and dispose of the material resultant from the crack sealing cleaning operation with a vacuum street sweeper at the conclusion of each work day. The street area subject to crack sealing shall be closed to traffic until the crack sealant has sufficiently cured and is not subject to “tracking” by vehicular traffic.

If equipment being used requires the cleaning out of pumps and plumbing, follow the manufacturer’s clean out instructions. If solvent is used for clean out, insure that the solvent does not contaminate the sealant because sealant dilution and flash problems may occur.

Pallets of boxed product are protected with a weather resistant covering. During storage, the protective wrap must be kept on the pallets to prevent boxes from getting wet. If boxes are subjected to moisture, they may lose strength and crush resulting in pallet leaning. If rips in the pallet covering occur during handling, they should be repaired to help maintain packaging integrity. Pallets should be stored on a level surface which is dry and has good drainage. Pallets should be not stacked because crushing of bottom layer may occur. Sealant material properties are not affected by packaging deterioration.

Since these sealants are heated to elevated temperatures, it is essential that operations be conducted in manners which assure safety of personnel. All associated with use of the material need to be aware of the hazards of using hot applied materials and safety precautions. Before use, the crew should read and understand product use and safety information on each box of sealant and the products MSDS. This sheet which is supplied with each shipment, describes the characteristics of the product as well as any potential health hazards and precautions for safe handling and use. User should check D.O.T. requirements for transportation at elevated temperatures above 212°F (100°C).

Skin contact with hot applied materials cause burns. Overexposure to fumes may cause respiratory tract irritation, nausea, or headaches. Appropriate precautions need to be taken to prevent contact with the hot material and to avoid inhalation of fumes for everyone in the vicinity of the sealing operation. Safety precautions should include: (1) Protective clothing to prevent skin contact with hot material; (2) Care when adding blocks of product to melters to reduce splashing; (3) Careful operation and control of wands or pour pots which are used to apply product; (4) Traffic and pedestrian control measures which meet or exceed local requirements to prevent access to work areas while product is still in a molten state; (5) Avoidance of material fumes; (6) Proper application configurations with a minimum amount of excesses of material; and (7) Appropriate cleanup of excessive applications or products spills.

MEASUREMENT AND PAYMENT

Crack treatment is measured by square yard.

The contract price paid per Square Yard of crack treatment includes full compensation for furnishing all labor, materials, tools, equipment, and incidentals, and for doing all the work involved in treating cracks, complete in place, including crack treatment of shoulders, applying sand and sweeping excess sand, as shown on the plans, as specified in the Standard Specifications and these special provisions, and as directed by the Engineer.

10-1.22 SURVEYING AND CONSTRUCTION STAKING – The contractor shall use a land surveyor licensed in the state of California.

Surveyor to verify both horizontal and vertical control and existing conditions. Surveyor to set local horizontal and vertical intervisible control on project site. Read and comprehend plans and resolve minor discrepancies, should any exist. Contractor shall preserve and, if necessary, surveyor shall perpetuate all existing horizontal and vertical monumentation.

Stakes and marks will be set by the surveyor sufficient to establish the lines and grades required for the completion of the work delineated on the plan set. The exact number of staking sets, horizontal location of construction stakes and associated grades required shall be decided at the pre-con meeting and may include any or all of the following: project limits, demolition limits, alignment, rough grade, final grade, slope stakes, face of curb, sanitary sewer, waterline, storm drain, utilities and other staking as requested. Any cost to refresh and/or replace stakes is the sole responsibility of the Contractor. Cut sheets shall be provided to the County.

The Contractor shall provide a full set of field marked as-built plans including as in-field exclusions, revisions and/or changes to the original plan set.

If additional Surveying is required for any work specified in this Special Provisions, i.e. digouts, it shall be at the contractor's expense.

Full compensation for providing Surveying work shall be considered as included in the lump sum item for "Surveying and Construction Staking" and no separate payment shall be therefore.

10-1.23 REMOVE AC PAVEMENT

The Engineer determines the rectangular limits of unsound AC Pavement. Before removing pavement/concrete, mark the saw cut lines and spall repair area on the pavement surface.

Where a portion of the existing A.C. pavement is to be removed, the outline of the area to be removed shall be cut on a neat line with a power-driven saw to full depth before removal.

Do not remove pavement/concrete until the Engineer verbally authorizes the saw cut area.

Use a power-driven saw with a diamond blade.

Remove pavement as shown and:

1. From the center of the repair area towards the saw cut
 2. To the full saw cut depth
 3. At least 2 inches beyond the saw cut edge to produce a rough angled surface
- Produce a rough surface by chipping or other removal methods that do not damage the pavement remaining in-place. Completely remove any saw overcuts. Pneumatic hammers used for concrete removal must weigh 15 pounds or less.

If contractor damages Asphalt Concrete pavement or concrete outside the removal area, enlarge the area to remove the damaged pavement/concrete at no extra cost to the County.

If dowel bars are exposed during removal, remove concrete from the exposed surface and cover with duct tape.

Full compensation for sawcutting the existing surfacing shall be paid in accordance with the contract price per linear foot for "Sawcut A.C. Pavement".

10-1.24 FIBERGLASS GRID REINFORCEMENT SYSTEM

The Contractors attention is directed to Section 39-2, "Hot Mix Asphalt," and Section 96 "Geosynthetics" of the 2018 Caltrans Standard Specifications and these special provisions for specifications related to furnishing and installing Geosynthetic Pavement Interlayer.

Geosynthetic pavement interlayer shall be done per the plans and these specifications. The Geosynthetic pavement interlayer shall be placed at the finish surface of the pavement leveling course. The material shall be a GlasGrid 8511 Asphalt Reinforcement System or County approved equal. The Geosynthetic pavement interlayer shall be installed per manufacturer recommendations and shall span the full width and length of the road.

Geosynthetic Pavement Interlayer (See Section 39-2.01B(9) & Section 39-2.01C(3)(g) of the 2018 Caltrans Standard Specification)

Geosynthetic pavement interlayer must comply with the specifications for pavement fabric, paving mat, paving grid, paving geocomposite grid, or geocomposite strip membrane as shown.

The asphalt binder for geosynthetic pavement interlayer must be PG 64-10, PG 64-16, or PG 70-10.

Where shown, place geosynthetic pavement interlayer over a coat of asphalt binder and in compliance with the manufacturer's instructions. Do not place the interlayer on a wet or frozen surface. If the interlayer, in compliance with the manufacturer's instructions, does not require asphalt binder, do not apply asphalt binder before placing the interlayer.

Before placing the interlayer or asphalt binder:

1. Repair cracks 1/4 inch and wider, spalls, and holes in the pavement. This repair is change order work.
2. Clean the pavement of loose and extraneous material.

If the interlayer requires asphalt binder, immediately before placing the interlayer, apply asphalt binder at a rate specified by the interlayer manufacturer; at 0.25 ± 0.03 gal per square yard of interlayer; or at a rate that just saturates the interlayer; whichever is greater. Apply asphalt binder the width of the interlayer plus 3 inches on each side. At an interlayer overlap, apply asphalt binder on the lower interlayer the same overlap distance as the upper interlayer.

If asphalt binder tracked onto the interlayer or brought to the surface by construction equipment causes interlayer displacement, cover it with a small quantity of HMA.

If the interlayer placement does not require asphalt binder, apply tack coat prior to placing HMA at the application rates specified under section 39-2.01C(3)(f) of the 2018 Standard Specifications based on the condition of the underlying surface on which the interlayer was placed.

Align and place the interlayer with no overlapping wrinkles, except a wrinkle that overlaps may remain if it is less than 1/2 inch thick. If the overlapping wrinkle is more than 1/2 inch thick, cut the wrinkle out and overlap the interlayer no more than 2 inches.

Overlap the interlayer borders between 2 to 4 inches. In the direction of paving, overlap the following roll with the preceding roll at any break.

You may use rolling equipment to correct distortions or wrinkles in the interlayer.

Before placing HMA on the interlayer, do not expose the interlayer to:

1. Traffic, except for crossings under traffic control and only after you place a small HMA quantity
2. Sharp turns from construction equipment
3. Damaging elements

Pave HMA on the interlayer during the same work shift. The minimum HMA thickness over the interlayer must be 0.12 foot including at conform tapers.

Paving Grid (See Section 96-1.02L of the 2018 Caltrans Standard Specification)

Geosynthetic pavement interlayer must meet the requirements for Class II Paving Grid.

Geosynthetics used for paving grid must be a geopolymer material formed into a grid of integrally connected elements with openings.

Paving grid must comply with the requirements shown in the following table:

Paving Grid

Quality characteristic	Test method	Requirement		
		Class I	Class II	Class III
Tensile strength at ultimate, (min, lb/in ²)	ASTM D6637	560 x 1,120	560	280

Paving geocomposite grid must consist of a paving grid specified in section 96-1.02L bonded or integrated with a paving fabric as specified in section 96-1.02J.

Paving geocomposite grid must have a peel strength of at least 10 lb/ft when tested under ASTM D413.

Payment

Full compensation for furnishing all labor, materials, tools and equipment and for doing all the work involved in furnishing and installing Geosynthetic Pavement Interlayer shall be considered as included in the contract price paid per square foot for “Geosynthetic Pavement Interlayer Fabric” and no additional compensation will be allowed therefor. Overlap material shall not be included with the square foot price.

PART IV. SPECIAL PROVISIONS – OTHER AGENCY REQUIREMENTS

SECTION 14. FEDERAL REQUIREMENTS FOR FEDERAL-AID CONSTRUCTION PROJECTS

GENERAL.—The work herein proposed will be financed in whole or in part with Federal funds, and therefore all of the statutes, rules and regulations promulgated by the Federal Government and applicable to work financed in whole or in part with Federal funds will apply to such work. The "Required Contract Provisions, Federal-Aid Construction Contracts, "Form FHWA 1273, are included in this Section 14. Whenever in said required contract provisions references are made to "SHA contracting officer," "SHA resident engineer," or "authorized representative of the SHA," such references shall be construed to mean "Engineer" as defined in Section 1-1.18 of the Standard Specifications.

PERFORMANCE OF PREVIOUS CONTRACT.—In addition to the provisions in Section II, "Nondiscrimination," and Section VII, "Subletting or Assigning the Contract," of the required contract provisions, the Contractor shall comply with the following:

The bidder shall execute the CERTIFICATION WITH REGARD TO THE PERFORMANCE OF PREVIOUS CONTRACTS OR SUBCONTRACTS SUBJECT TO THE EQUAL OPPORTUNITY CLAUSE AND THE FILING OF REQUIRED REPORTS located in the proposal. No request for subletting or assigning any portion of the contract in excess of \$10,000 will be considered under the provisions of Section VII of the required contract provisions unless such request is accompanied by the CERTIFICATION referred to above, executed by the proposed subcontractor.

NON-COLLUSION PROVISION.—The provisions in this section are applicable to all contracts except contracts for Federal Aid Secondary projects.

Title 23, United States Code, Section 112, requires as a condition precedent to approval by the Federal Highway Administrator of the contract for this work that each bidder file a sworn statement executed by, or on behalf of, the person, firm, association, or corporation to whom such contract is to be awarded, certifying that such person, firm, association, or corporation has not, either directly or indirectly, entered into any agreement, participated in any collusion, or otherwise taken any action in restraint of free competitive bidding in connection with the submitted bid. A form to make the non-collusion affidavit statement required by Section 112 as a certification under penalty of perjury rather than as a sworn statement as permitted by 28, USC, Sec. 1746, is included in the proposal.

PARTICIPATION BY DISADVANTAGED BUSINESS ENTERPRISES IN SUBCONTRACTING.—Part 26, Title 49, Code of Federal Regulations applies to this Federal-aid project. Pertinent sections of said Code are incorporated in part or in its entirety within other sections of these special provisions.

Note: Under Executive Order (EO) 13658, an hourly minimum wage of \$10.95 for calendar year 2021 applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2015. If this contract is covered by the EO, the contractor must pay all workers in any classification listed on this wage determination at least \$10.95 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in calendar year 2021. The classifications are listed in alphabetical order of ""identifiers"" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than ""SU"" or ""UAVG"" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the

most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the ""SU"" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

* an existing published wage determination

- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

The special provisions for the work to be done are dated May 25, 2021 and are entitled:

The project plans for the work to be done were adopted: May 25, 2021 and are entitled:

CLARK RD IMPROVEMENTS
FROM WAHL RD TO 0.5mi NORTH OF SR-98
AND FROM HEBER RD TO 0.5mi NORTH OF HEBER RD IN IMPERIAL COUNTY
Federal Project No. STBGL-5958(114)
County Project No. 6598**

Bids are to be submitted for the entire work. The amount of the bid for comparison purposes will be the total of all items.

The bidder shall set forth for each unit basis item of work an item price and a total for the item, and for each lump sum item a total for the item, all in clearly legible figures in the respective spaces provided for this purpose. In the case of unit basis items the amount set forth under the "Total" column shall be the extension of the item price bid on the basis of the estimated quantity for the item.

In case of discrepancy between the unit price and the total set forth for a unit basis item, the item price shall prevail, provided in (a) or (b), as follows:

- (a) If the amount set forth as a unit price is unreadable or otherwise unclear, or is omitted, or is the same as the amount of the entry in the item total column, then the amount set forth in the item total column for the item shall prevail and shall be divided by the estimated quantity for the item and the price thus obtained shall be the unit price;
- (b) (Decimal Errors) If the product of the entered unit price and the estimated quantity is exactly off by a factor of ten, one hundred, etc., or one-tenth, or one-hundredth, etc. from the entered total, the discrepancy will be resolved by using the entered unit price or item total, whichever most closely approximates percentage-wise the unit price or item total in the County of Imperial's Final Estimate of cost.

If both the unit price and the item total are unreadable or otherwise unclear, or are omitted, the bid may be deemed irregular. Likewise if the item total for a lump sum item is unreadable or otherwise unclear, or is omitted, the bid may be deemed irregular unless the project being bid has only a single item and a clear, readable total bid is provided.

Symbols such as commas and dollar signs will be ignored and have no mathematical significance in establishing any unit price or item total or lump sums. Written unit prices, item totals and lump sums will be interpreted according to the number of digits and, if applicable, decimal placement. Cents symbols also have no significance in establishing any unit price or item total since all figures are assumed to be expressed in dollars and/or decimal fractions of a dollar. Bids on lump sum items shall be item totals only; if any unit price for a lump sum item is included in a bid and it differs from the item total, the items total shall prevail.

The foregoing provisions for the resolution of specific irregularities cannot be so comprehensive as to cover every omission, inconsistency, error or other irregularity which may occur in a bid. Any situation not specifically provided for will be determined in the discretion of the County of Imperial, and that discretion will be exercised in the manner deemed by the County of Imperial to best protect the public interest in the prompt and economical completion of the work. The decision of the County of Imperial respecting the amount of a bid, or the existence or treatment of an irregularity in a bid, shall be final.

If this proposal shall be accepted and the undersigned shall fail to enter into the contract and furnish the 2 bonds in the sums required by the State Contract Act, with surety satisfactory to the *County of Imperial*, within 8 days, not including Saturdays, Sundays and legal holidays, after the bidder has received notice from the *County of Imperial*

that the contract has been awarded, the *County of Imperial* may, at its option, determine that the bidder has abandoned the contract, and thereupon this proposal and the acceptance thereof shall be null and void and the forfeiture of the security accompanying this proposal shall operate and the same shall be the property of the *County of Imperial*.

The undersigned, as bidder, declares that the only persons or parties interested in this proposal as principals are those named herein; that this proposal is made without collusion with any other person, firm, or corporation; that he has carefully examined the location of the proposed work, the annexed proposed form of contract, and the plans therein referred to; and he proposes, and agrees if this proposal is accepted, that he will contract with the *County of Imperial*, in the form of the copy of the contract annexed hereto, to provide all necessary machinery, tools, apparatus and other means of construction, and to do all the work and furnish all the materials specified in the contract, in the manner and time therein prescribed, and according to the requirements of the Engineer as therein set forth, and that he will take in full payment therefore the following prices, to wit:

WHEREAS, COUNTY wishes to engage CONTRACTOR for performance of such services as are provided for herein and CONTRACTOR is willing to accept such engagement.

NOW, THEREFORE, COUNTY and CONTRACTOR have and hereby agree to the following:

1. DEFINITIONS.

1.1. “Invitation for Bid” shall mean the document entitled, “«Name_of_RFP»,” dated «Date_of_RFP», which includes all special notices, addendums, exhibits and Plans and Specifications as defined in Paragraph 1.3. The Invitation for Bid is attached hereto as **Exhibit “A”** and incorporated herein as though fully set forth.

8 reason, the Contract Manager designee shall be subject to the prior written acceptance and
9 approval of COUNTY's Contract Manager.

10 **3. SCOPE OF WORK TO BE PERFORMED BY CONTRACTOR.**

11 **3.1.** CONTRACTOR shall furnish all work, labor, tools, equipment, materials, supervision,
12 scheduling, coordination and contract administration necessary to construct and complete
13 the Project in a good, expeditious, workman-like and substantial manner under the terms of
14 and in full and complete compliance with this Agreement ("Work").

15 **3.2.** CONTRACTOR shall comply with and perform work consistent with all terms,
16 conditions and requirements of the Plans, Specifications, the Invitation for Bids and this
17 Agreement.

18 **3.3.** All described work shall be constructed, installed, placed and performed in conformance
19 with the Plans and Specifications and all Special Provisions contained therein and as directed
20 by COUNTY's engineer.

21 **3.4.** In the event of a conflict among this Agreement, the Invitation for Bid and the Proposal, the
22 Invitation for Bid shall take precedence over the Proposal and this Agreement shall take
23 precedence over both.

24 **3.5.** CONTRACTOR shall perform such other tasks as necessary and proper for the full

2," etc.).

4. **TRENCHING REQUIREMENTS AND UTILITY RELOCATION.**

4.1. **Four Feet (4') Below the Surface.** In the event the Project involves digging trenches or other excavations that extend deeper than four feet (4') below the surface, CONTRACTOR shall:

4.1.1. Promptly, and before the following conditions are disturbed, notify COUNTY, in writing, of any:

- (a) Material that CONTRACTOR believes may be material that is hazardous waste, as defined in Health & Safety Code §25117, that is required to be removed to a Class I, Class II or Class III disposal site in accordance with provisions of existing law;
- (b) Subsurface or latent physical conditions at the site differing from those indicated by information about the site made available to bidders prior to the deadline for submitting bids; and
- (c) Unknown physical conditions at the site of any unusual nature, different materially from those ordinarily encountered and generally recognized as inherent in work of the character provided for in the Agreement.

4.1.2. In response to any written notice generated pursuant to Subparagraph 4.1.1, COUNTY shall promptly investigate the conditions, and if it finds that the conditions do materially so differ, or do involve hazardous waste, and cause a decrease or increase in CONTRACTOR's cost of, or the time required for, performance of any part of the Work, COUNTY shall issue a change order under the procedures described in this Agreement.

4.1.3. In the event that a dispute arises between COUNTY and CONTRACTOR whether the conditions materially differ, or involve hazardous waste, or cause a decrease or increase in CONTRACTOR's cost of, or time required for, performance of any part of the Work, CONTRACTOR shall not be excused from any scheduled completion date provided for by this Agreement, but shall proceed with all Work

1 to be performed under this Agreement. CONTRACTOR shall retain any and all
2 rights provided either by contract or by law which pertain to the resolution of
3 disputes and protests between the Parties.

4 **4.2. Trenching Requirements – Project in Excess of Twenty-Five Thousand Dollars (\$25,000)**
5 **and Five Feet (5') Below the Surface.** For projects involving both an estimated expenditure
6 in excess of twenty-five thousand dollars (\$25,000) and the excavation of any trench five
7 feet (5') or more in depth, CONTRACTOR shall submit a detailed plan showing the
8 design of shoring, bracing, sloping or other provisions to be made for worker protection
9 from the hazard of caving ground during the excavation of such trench. The plan must
10 be accepted by COUNTY (or by a registered civil or structural engineer, employed by
11 COUNTY, to whom authority to accept has been delegated) in advance of excavation. If
12 such plan varies from the shoring system standards, the plan shall be prepared by a
13 registered civil or structural engineer. Nothing in this Paragraph shall allow
14 CONTRACTOR to use a shoring, sloping, or protective system less effective than that
15 required by California Construction Safety Orders. Further, nothing in this Paragraph
16 shall be construed to impose tort liability on COUNTY or any of its employees.

17 **4.3. Utilities Relocation.** In the event that CONTRACTOR, in the scope of work, encounters
18 utilities not shown on COUNTY'S plans, COUNTY shall compensate CONTRACTOR
19 for utilities relocation work. COUNTY shall also waive liquidated damages for any delay
20 that occurs as a result of said encounter and/or relocation of utilities.

21 **5. CHANGE ORDERS.**

22 **5.1. Change Orders.** CONTRACTOR shall make no changes to the Work to be performed
23 pursuant to this Agreement, including but not limited to additions, deletions, modifications
24 or substitutions, nor shall CONTRACTOR perform any extra work (collectively, "Change
25 Order Work") without the prior written consent of COUNTY. If CONTRACTOR
26 encounters conditions it considers different from those described in **Exhibit "A"** to this
27 Agreement, CONTRACTOR may request a change order in conformance with COUNTY's
28 standard procedure ("Change Order"). If COUNTY approves the request, CONTRACTOR

will execute a Change Order and CONTRACTOR's execution of the Change Order shall confirm approval thereof. COUNTY may order additional work, and CONTRACTOR shall perform such changes in the Work as directed by COUNTY in any Change Order prepared by CONTRACTOR. COUNTY's rights to eliminate portions of the Work or to initiate a Change Order shall not be limited in any way. The Change Order shall be in writing and shall include:

- 5.1.1. Any and all supporting documents and drawings depicting the source and location of the desired change, and explain in detail the field conditions and reasons for the requested change;

- 5.1.3. Any request for adjustments to time for completion of the Project.

5.2. Payment for Change Order Work. CONTRACTOR shall not be entitled to receive any compensation for work, labor, materials or changes of any kind, regardless of whether ordered by COUNTY or any of its representatives, unless a Change Order has been submitted in writing and approved prior to the commencement of any Change Order Work as described above. If the changes are required by any inspecting governmental agencies or utility companies, or are otherwise required to comply with any codes, laws, rules or regulations, including those set forth in this Agreement, then CONTRACTOR shall not be entitled to any increases in the compensation set forth in this Agreement or other compensation as a result of the changes.

5.3. Disputed Change Order Work. Any dispute concerning the performance of such Change Order Work or the amount of compensation to be paid to CONTRACTOR by COUNTY shall not affect CONTRACTOR's obligation to perform such Change Order Work. CONTRACTOR agrees that it shall timely complete all Change Order Work even if there shall be a dispute between CONTRACTOR and COUNTY over the amount or scope of the Change Order Work. CONTRACTOR shall have the right to be compensated for any

1 undisputed Change Order Work amounts as determined to be undisputed in COUNTY's
2 sole discretion.

3 **5.4. Authorized Representative.** No Change Order shall be valid or binding against COUNTY
4 unless such Change Order has been executed by COUNTY's designated representative, who
5 is the Director of Public Works. COUNTY shall notify CONTRACTOR in writing if the
6 designated representative is changed.

7 **5.5. Limits.** When applicable, the authority to execute a Change Order on this Project shall not
8 exceed the amount allowed by law pursuant to Public Contract Code sections 20137-20142
9 et seq. Where Change Orders are in an amount between ten percent (10%) and twenty-five
10 percent (25%) of the amount set forth in this Agreement and based on a need for additional
11 quantities due to an increase in the unit quantities required to complete the project in excess
12 of the COUNTY's Engineer's estimate of unit quantities as set forth in the Invitation to Bid,
13 CONTRACTOR shall be paid pursuant to Public Contract Code sections 20143 and 20139
14 and section 4 of the Standard Specifications, State of California, Business, Transportation
15 and Housing Agency, May 2006 Issued by the Department of Transportation ("Caltrans
16 Standard Specifications") referred to in **Exhibit "A"** and incorporated herein by reference.

17 **6. REPRESENTATIONS BY CONTRACTOR.**

18 **6.1.** CONTRACTOR understands and agrees that COUNTY has limited knowledge in the
19 construction specified in the description of work. CONTRACTOR has represented itself to
20 be expert in these fields and understands that COUNTY is relying upon such representation.

21 **6.2.** CONTRACTOR represents and warrants that it is a lawful entity possessing all required
22 licenses and authorities to do business in the State of California and perform all aspects
23 of this Agreement.

24 **6.3.** CONTRACTOR shall not commence any work under this Agreement or provide any
25 other services, or materials, in connection therewith until CONTRACTOR has received
26 written authorization from the Director of Public Works, or his/her designee ("Notice to
27 Proceed") to do so.

28 **6.4.** CONTRACTOR represents and warrants that the people executing this Agreement on

1 behalf of CONTRACTOR have the authority of CONTRACTOR to sign this Agreement
2 and bind CONTRACTOR to the performance of all duties and obligations assumed by
3 CONTRACTOR herein.

4 **6.5.** CONTRACTOR represents and warrants that any employee, contractor, subcontractor and
5 agent who will be performing any of the duties and obligations of CONTRACTOR herein
6 possess all required licenses and authorities, as well as the experience and training, to
7 perform such tasks.

8 **6.6.** CONTRACTOR represents and warrants that the allegations contained in its Proposal are
9 true and correct.

10 **6.7.** CONTRACTOR understands that COUNTY considers the representations made herein
11 to be material and would not enter into this Agreement with CONTRACTOR if such
12 representations were not made.

13 **6.8.** Retention and Access of Books and Records. CONTRACTOR represents and warrants
14 that it shall maintain books, records, documents, reports and other materials developed
15 under this Agreement as follows:

16 **6.8.1.** CONTRACTOR shall hold and possess as the property of COUNTY all papers,
17 books, files, correspondence and other records of all kinds which at any time shall
18 come into its possession or under its control relating only to services performed
19 by CONTRACTOR under this Agreement for a minimum period of five (5) years,
20 or for any longer period required by law, from the date said papers came into the
21 possession of CONTRACTOR pursuant to this Agreement.

22 **6.8.2.** Any records or documents required to be maintained by CONTRACTOR
23 pursuant to this Agreement shall be made available to COUNTY for inspection or
24 audit, at any time during CONTRACTOR's regular business hours provided
25 COUNTY provides CONTRACTOR with seven (7) days advanced written or oral
26 notice. Copies of such documents shall, at no cost to COUNTY, be provided to
27 COUNTY for inspection at CONTRACTOR's address indicated for receipt of
28 notices under this Agreement.

1 **9. PAYMENT AND RETENTION OF FUNDS.**

2 COUNTY shall pay CONTRACTOR for completed and approved services upon presentation
3 and approval of its itemized billing, subject to the following.

5 **9.1.1.** In accordance with Cal. Pub. Contract Code §§ 7201 and 9203, COUNTY shall
6 generally retain five percent (5%) of the total compensation payable under this
7 Agreement until the Work to be performed has been completed in accordance with
8 this Agreement, as determined by COUNTY, and payment in full of all of
9 CONTRACTOR's subcontractors has been certified.

10 **9.1.2.** The 5% retention amount may be exceeded if the COUNTY's Board of Supervisors
11 has approved a finding, during a properly noticed and normally scheduled public
12 hearing conducted either prior to or concurrent with authorizing this Project to go
13 out to bid, that the Project is substantially complex and therefore requires a higher
14 retention amount than 5%. Should the retention amount exceed 5% for this Project,
15 then the actual retention amount will be listed in the Plans and Specifications, along
16 with the findings justifying the increased retention amount.

17 **9.2. Substitution of Retention.**

18 **9.2.1.** CONTRACTOR may elect to substitute securities for any retention of funds by
19 COUNTY to ensure performance under this Agreement. At the request and
20 expense of CONTRACTOR, securities equivalent to the amount retained shall be
21 deposited with the COUNTY, or with a state or federally chartered bank in this state
22 as the escrow agent, who shall then return the securities to CONTRACTOR once
23 the Work to be performed has been completed in accordance with this Agreement,
24 as determined by COUNTY, and payment in full of all of CONTRACTOR's
25 subcontractors has been certified.

26 **9.2.2.** Alternatively, CONTRACTOR may request and COUNTY shall make payment of
27 retentions earned directly to the escrow agent at the expense of CONTRACTOR.

The claim shall be in a format approved by COUNTY. COUNTY shall make no payment prior to the claims being approved in writing by the Director of Public Works or his/her designee.

10.2. After determining that the claim is a proper payment request, the Director of Public

1 Works, or his/her designee, shall submit to COUNTY's Auditor/Controller undisputed
2 and properly submitted claims approved for payment within ten (10) days following the
3 date the claim was submitted to his/her Department.

11.2.6. Any breach by CONTRACTOR of the terms, requirements or covenants of this Agreement.

11.3. The indemnification provisions of this Agreement shall extend to Claims occurring after this Agreement is terminated, as well as while it is in force.

12. INDEPENDENT CONTRACTOR

12.1. In all situations and circumstances arising out of the terms and conditions of this Agreement, CONTRACTOR is an independent contractor, and as an independent contractor, the following shall apply:

12.2. CONTRACTOR is not an employee or agent of COUNTY and is only responsible for the requirements and results specified by this Agreement.

12.3. CONTRACTOR shall be responsible to COUNTY only for the requirements and results specified by this Agreement and except as specifically provided in this Agreement, shall not be subject to COUNTY's control with respect to the physical actions or activities of CONTRACTOR in fulfillment of the requirements of this Agreement.

12.4. CONTRACTOR is not, and shall not be, entitled to receive from, or through, COUNTY, and COUNTY shall not provide, or be obligated to provide, CONTRACTOR with Worker's Compensation coverage or any other type of employment or worker insurance or benefit coverage required or provided by any Federal, State or local law or regulation for, or normally afforded to, an employee of COUNTY.

12.5. CONTRACTOR shall not be entitled to have COUNTY withhold or pay, and COUNTY shall not withhold or pay, on behalf of CONTRACTOR, any tax or money relating to the Social Security Old Age Pension Program, Social Security Disability Program, or any other type of pension, annuity, or disability program required or provided by any Federal, State or local law or regulation.

2 make any claim against any COUNTY fringe benefit program, including, but not limited
3 to, COUNTY's pension plan, medical and health care plan, dental plan, life insurance

- 9 **12.8.** CONTRACTOR is, and at all times during the term of this Agreement shall represent and
10 conduct itself as, an independent contractor, not an employee of COUNTY.
- 11 **12.9.** CONTRACTOR shall not have the authority, express or implied, to act on behalf of, bind
12 or obligate COUNTY in any way without the written consent of COUNTY.

13 **13. INSURANCE.**

- 14 **13.1.** CONTRACTOR hereby agrees at its own cost and expense to procure and maintain,
15 during the entire term of this Agreement and any extended term therefore, insurance in a

13.2.4. State that it is primary insurance and regards COUNTY as an additional insured and contains a cross-liability or severability of interest clause.

13.2.5. Not be canceled, non-renewed or reduced in scope of coverage until after thirty (30) days written notice has been given to COUNTY. However, CONTRACTOR may not terminate such coverage until it provides COUNTY with proof that equal or better insurance has been secured and is in place. Cancellation or change without the prior written consent of COUNTY shall, at the option of COUNTY, be grounds for termination of this Agreement.

13.2.6. If this Agreement remains in effect more than one (1) year from the date of its original execution, COUNTY may, at its sole discretion, require an increase in the amount of liability insurance to the level then customary in similar COUNTY Agreements by giving sixty (60) days notice to CONTRACTOR.

- (e) Does not contain an “escape clause” which extinguishes the insurer’s liability if the loss is covered by other insurance;
- (f) Includes COUNTY as an additional insured; and
- (g) States that it is primary insurance and regards COUNTY as an additional insured and contains a cross-liability or severability of interest clause.

13.4. Deposit of Insurance Policy. Promptly on issuance, reissuance, or renewal of any insurance policy required by this Agreement, CONTRACTOR shall, if requested by COUNTY, cause to be given to COUNTY satisfactory evidence that insurance policy premiums have been paid together with a duplicate copy of the policy or a certificate evidencing the policy and executed by the insurance company issuing the policy or its authorized agent.

13.5. Certificates of Insurance. Complete copies of certificates of insurance for all required coverages including additional insured endorsements shall be attached hereto as **Exhibit “C”** and incorporated herein as though fully set forth.

13.6. Additional Insurance. Nothing in this, or any other provision of this Agreement, shall be construed to preclude CONTRACTOR from obtaining and maintaining any additional insurance policies in addition to those required pursuant to this Agreement.

14. WORKERS’ COMPENSATION CERTIFICATION.

14.1. Prior to the commencement of work, CONTRACTOR shall sign and file with COUNTY the following certification: “I am aware of the provisions of California Labor Code §§3700 et seq. which require every employer to be insured against liability for workers’ compensation or to undertake self-insurance in accordance with the provisions of that code, and I will comply with such provisions before commencing the performance of the work of this contract.”

14.2. This certification is included in this Agreement and signature of the Agreement shall constitute signing and filing of the certificate.

14.3. CONTRACTOR understands and agrees that any and all employees, regardless of hire

1 date, shall be covered by Workers' Compensation pursuant to statutory requirements
2 prior to beginning work on the Project.

3 14.4. If CONTRACTOR has no employees, initial here: _____.

4 15. **WARRANTY.**

5 15.1. One Year Warranty. CONTRACTOR agrees to provide a one-year warranty for all of its
6 work and component parts and guarantees that all work shall be performed in a
7 professional and workman-like manner and be free from defects. CONTRACTOR
8 guarantees to timely correct all work performed by it under this Agreement which
9 COUNTY determines to be defective in design, material and/or workmanship within a
10 period of one (1) year from the date of the completion of the Work. The warranties set
11 forth in this Agreement shall be in addition to, and not in lieu of, all other statutory and
12 case law warranties and obligations of CONTRACTOR. CONTRACTOR expressly
13 agrees that all warranties made by CONTRACTOR, all obligations under this Agreement
14 and all remedies for breach of such warranties shall survive this Agreement in the event
15 it is terminated or expires for any reason prior to the running of the full warranty periods
16 listed above.

17 15.2. Materials. All materials furnished by CONTRACTOR shall be new, manufactured
18 during the current year, of first quality and carrying full manufacturer's warranty.
19 CONTRACTOR shall be responsible for any expiration of manufacturer or other
20 warranties of material or equipment being supplied for this Agreement. CONTRACTOR
21 guarantees that all warranties of material and equipment shall become effective when the
22 project is accepted by COUNTY's Board of Supervisors, not at time of installation by
23 CONTRACTOR.

24 15.3. Manufacturers' Warranty Information. CONTRACTOR agrees to promptly provide such
25 information and maintenance recommendations to COUNTY at the inception of
26 CONTRACTOR's work to the extent such information is reasonably available.

27 16. **DEFAULT AND REMEDIES.**

28 16.1. Default. In the event that (i) CONTRACTOR files a petition requesting relief under any

1 bankruptcy act, or is adjudged as bankrupt, or makes a general assignment for the benefit
2 of creditors or has a receiver appointed on account of its insolvency, or (ii)
3 CONTRACTOR refuses or is unable, for whatever reason, to supply enough properly
4 skilled workers or proper materials to complete the Project, or (iii) CONTRACTOR fails
5 to follow the directions of COUNTY, or (iv) CONTRACTOR fails to make prompt
6 payment to its subcontractors and suppliers for materials or labor supplied or permits any
7 lien to be imposed upon all or any portion of the Project, or (v) CONTRACTOR
8 disregards any laws or orders of any public or private authority having jurisdiction over
9 the Work or the Project, or (vi) CONTRACTOR fails to perform in accordance with any
10 of the terms of this Agreement or breaches any provision of this Agreement, COUNTY
11 may give notice of such failure or breach to CONTRACTOR, identifying the failure or
12 breach of this Agreement. Should any such failure or breach continue for twenty-four
13 (24) hours after delivery of notice without a good faith effort on the part of
14 CONTRACTOR to commence all necessary corrective action, or should such a breach
15 continue despite CONTRACTOR's efforts for forty-eight (48) hours, then at that time
16 such failure shall be deemed a default by CONTRACTOR under this Agreement and
17 COUNTY shall have all rights and remedies available at law or in equity, including the
18 right to terminate this Agreement. Without limiting its rights and remedies, COUNTY
19 may then proceed as follows:

20 **16.1.1.** Without terminating this Agreement or the obligations of CONTRACTOR
21 hereunder as to all of the Work required to be performed or furnished by
22 CONTRACTOR pursuant to this Agreement, COUNTY may require
23 CONTRACTOR, at CONTRACTOR's expense, to cure such default(s) as may
24 exist in the performance of CONTRACTOR's obligations hereunder within forty-
25 eight (48) hours after such default(s) has/have occurred including but not limited
26 to repairing, replacing and correcting material or Work determined by COUNTY
27 to be defective or not complying with the requirements of this Agreement. Should
28 CONTRACTOR fail to timely repair, replace and/or correct non-complying or

defective materials and workmanship or otherwise cure its default(s) hereunder, and in the case of emergencies in which case COUNTY may act immediately if CONTRACTOR is not available or is not responding, and without further notice, COUNTY may make required repairs, replacements and other corrections or otherwise remedy the default by CONTRACTOR pursuant to the subparagraph below.

16.1.2. Without terminating this Agreement or the obligations of CONTRACTOR hereunder as to all of the Work required to be performed or furnished by CONTRACTOR pursuant to this Agreement, COUNTY may engage another contractor to perform such portion of CONTRACTOR's Work required pursuant to this Agreement or furnish any materials or other items required hereunder as COUNTY in its sole discretion may deem necessary to avoid delay in the progress of the Work, and in connection therewith, COUNTY may perform such Work or any portion thereof itself or have the same performed by others and COUNTY may procure all necessary materials, equipment or other items required for the continued progress of such Work. The costs incurred by COUNTY as a result of engaging another contractor shall be deducted from the compensation payable pursuant to this Agreement and if COUNTY's costs exceed or may reasonably be anticipated to exceed the balance of the compensation due to CONTRACTOR for such work, such excess, or anticipated excess, shall be immediately due and owing from CONTRACTOR to COUNTY and may be withheld from any funds due to CONTRACTOR pursuant to this Agreement or any other agreement.

16.1.3. COUNTY may terminate CONTRACTOR's right to perform upon written notice and COUNTY shall then have the option of completing the Work or any portion thereof by exercise of its interest under the performance bond issued in favor by CONTRACTOR, or having such Work in whole or in part be completed by others for CONTRACTOR's account. A calculation shall take place at the conclusion of the Project wherein to the degree the sum of COUNTY's costs and any amounts

16.2. Damages. CONTRACTOR shall be liable for all damages suffered by COUNTY by reason of CONTRACTOR’s default in any provision of this Agreement and the exercise of COUNTY of its option to terminate this Agreement shall not release CONTRACTOR of such liability. CONTRACTOR shall have no right to receive any further payment after a default has occurred until such time as the Work to be performed by CONTRACTOR pursuant hereto has been completed and accepted by COUNTY and damages suffered by COUNTY, if any, ascertained. Damages shall include by way of illustration, but not of exclusion, COUNTY’s costs of completing the Work which exceeds the compensation payable pursuant to this Agreement, other general, liquidated, special or consequential damages, attorney fees and costs.

16.3. Actions After Default. Should COUNTY exercise any of its options, remedies or rights granted pursuant to the terms of this Agreement in the event of a default by CONTRACTOR, COUNTY at its sole election may, but shall not be obligated to, use any materials, supplies, tools or equipment on the work site which belong to CONTRACTOR to complete the Work required to be completed by CONTRACTOR, whether such work is completed by COUNTY or by others, and CONTRACTOR agrees that it shall not remove such materials, supplies, tools and equipment from the work site unless directed in writing by COUNTY to do so.

16.4. Limit on Force Majeure Damages. CONTRACTOR shall not be responsible for repairing or restoring damage to work caused by an act of God in excess of five (5) percent of the contract amount, provided that the work damaged is built in accordance with accepted and applicable building standards and the plans and specifications of COUNTY. In the event of such damage, COUNTY may, at its option, elect to terminate this Agreement. For purposes of this Agreement, an “act of God” shall be defined as an earthquake in excess of 3.5 on the Richter Scale and a tidal wave.

- 1 **16.5. Resolution of Claims.** COUNTY and CONTRACTOR agree to follow and comply with
2 the mediation, arbitration, claim, civil action procedure and trial de novo provisions set
3 forth in California Public Contracts Code §§ 9204 and 20104 – 20104.6.
- 4 **16.6. No Limitation of Rights.** The options and rights granted to COUNTY herein shall not be
5 deemed as limitations upon the other rights and remedies of COUNTY in the event of a
6 failure of performance or breach by CONTRACTOR, and COUNTY shall be entitled to
7 exercise the rights and remedies hereinabove specified and all other rights and remedies
8 which may be provided in this Agreement or by law or in equity, either cumulatively or
9 consecutively, and in such order as COUNTY in its sole discretion shall determine.
- 10 **17. NON-DISCRIMINATION.**
- 11 **17.1.** During the performance of this Agreement, CONTRACTOR and its subcontractors shall
12 not unlawfully discriminate, harass or allow harassment against any employee or
13 applicant for employment because of sex, race, color, ancestry, religious creed, national
14 origin, physical disability (including HIV and AIDS), mental disability, medical
15 condition (cancer), age (over forty (40)), marital status and denial of family care leave.
- 16 **17.2.** CONTRACTOR and its subcontractors shall insure that the evaluation and treatment of
17 their employees and applicants for employment are free from such discrimination and
18 harassment.
- 19 **17.3.** CONTRACTOR and its subcontractors shall comply with the provisions of the Fair
20 Employment and Housing Act (Gov. Code §12990 (a-f) et seq.) and the applicable
21 regulations promulgated thereunder (California Code of Regulations, Title 2, Section
22 7285 et seq.).
- 23 **17.4.** The applicable regulations of the Fair Employment and Housing Commission
24 implementing Government Code §12990 (a-f), set forth in Chapter 5 of Division 4 of
25 Title 2 of the California Code of Regulations, are incorporated into this Agreement by
26 reference and made a part hereof as if set forth in full.
- 27 **17.5.** The applicable regulations of Section 504 of the Rehabilitation Act of 1973 (29 U.S.C.
28 §794 (a)) are incorporated into this Agreement by reference and made a part hereof as if

- 1 set forth in full.
- 2 **17.6.** CONTRACTOR and its subcontractors shall give written notice of their obligations under
- 3 this clause to labor organizations with which they have a collective bargaining or other
- 4 agreement.
- 5 **17.7.** CONTRACTOR shall include the nondiscrimination and compliance provisions of this
- 6 clause in all subcontracts to perform Work under this Agreement.
- 7 **18. DISADVANTAGED BUSINESS ENTITY COMPLIANCE.**
- 8 **18.1.** When applicable, CONTRACTOR and its subcontractors shall reference and abide by
- 9 the guidance and Disadvantaged Business Enterprise (“DBE”) specifications contained
- 10 in the California Department of Transportation’s Standard Specifications.
- 11 **18.2.** CONTRACTOR represents and warrants that is has fully read the applicable DBE
- 12 requirements pertaining to this Project and has fully and accurately completed any and
- 13 all required DBE forms.
- 14 **18.3.** CONTRACTOR represents and warrants that it will comply with all applicable DBE
- 15 requirements for this Project.
- 16 **18.4.** CONTRACTOR shall comply with the applicable DBE provisions attached hereto as
- 17 **Exhibit “D”** and incorporated by this reference as though fully set forth herein.
- 18 **18.5.** If any state or federal funds are withheld from COUNTY or not reimbursed to COUNTY
- 19 due to CONTRACTOR’s failure to either comply with the DBE requirements set forth in
- 20 the RFP and this Agreement, or to meet the mandatory DBE goals as determined by
- 21 COUNTY, Caltrans, the Federal Highway Administration, and/or any other state or
- 22 federal agency contributing funds to the Project, then CONTRACTOR shall fully
- 23 reimburse COUNTY the amount of funding lost. COUNTY reserves the right to deduct
- 24 any such loss in funding from the amount of compensation due to CONTRACTOR under
- 25 this Agreement.
- 26 **18.6.** In addition to the above, CONTRACTOR’s failure to comply with DBE
- 27 requirements/goals shall subject it to such sanctions as are permitted by law, which may
- 28 include, but shall not be limited to the following:
